Time for a "forced march"

"A man he seems of cheerful Yesterdays, and confident Tomorrows-"

And—there you are! Selling goods or advice is a matter of complete understanding of two things: conveyance of information as to nature and quality to buyers; and the creation of a desire to buy, in their minds.

It is simple.

Like all things essentially simple and apparently easy, it is however, full of pitfalls for the unwary.

One mistake most readily made by the advertiser who is not a deep student of the subject is to curtail or omit his customary expenditure for advertising in periods of uncertainty.

Whereas that is the time for a Forced March.

The keener the competition among producers and sellers, and the less eager or more diffident the consumers, the greater is the need for additional activity and intensity by the advertiser.

This is the Time of Times for using Daily Newspaper Advertising.

The Daily Newspaper is the medium of the moment—the axis of opportunity; flexible, powerful and instantaneous in its ability to create sales.

The Daily Newspapers of Canada welcome the challenge of present business conditions. They can be used to overcome them by almost every manufacturer and merchant prepared to make a "Forced March" with his advertising.

Advice as to the best ways and means of doing this will be given to those who inquire of us; or consult any recognized advertising agency—a list supplied on
