The Combination That Leads

THE WEEKLY TELEGRAM and its Premium "On The Look Out"

If you have not been a subscriber to **The Weekly Telegram**, many of your neighbors have, and they will tell you it is the best weekly west of the great lakes. The market reports are accurate and up-to-date. In this age of competition every farmer must have the fullest information possible on the price of grain, hogs and cattle. If he has access to the market reports of this paper he will know when to sell and what to ask. **The Telegram's** reports are never colored, but are always accurate, and every week give a true and impartial statement of the situation.

The special news features, the editorials and the sections devoted to women, makes **The Weekly Telegram** the best to be had in Canada. This includes the best dress patterns, especially drawn for **The Telegram** and sold only to **Telegram** readers at a nominal figure. Another feature which puts the **Telegram** in the very front rank of western weeklies is the **Comic Section in Colors**. No other weekly in Canada gives its readers this big feature every week in the year. The old and the young, in fact every member of the family, follow with increasing interest the doings and sayings of the humorous characters in our comic pages. We repeat, it's the greatest comic feature offered by any newspaper in the country—and **The Telegram** alone has the exclusive use of the Copyright in Western Canada.

THE PREMIUM—"On The Look Out," a masterpiece in fourteen colors, reproduced directly from the original painting by the colotype process and faithfully retaining all the tones, effects and shading of the original. The reproduction is a natural subject, and tells the beautiful story of "Evangeline" waiting at the gate near the old home. The masterly shading and the harmony of color will appeal to all phases of humanity as only a picture from nature can. This magnificent reproduction is 10x20 inches, ready for mounting. It will constitute an ornament on the wall of any home and is a real work of art.

HERE IS THE POINT

The Raising and Lowering of the Heel

J. I. CASE SELF-LEVELING IRON FOOT-LIFT LINKY PLOW

The most important feature ever placed in a self-leveling plow is the ability to raise and lower the heel. The J. I. Case Self-Leveling Iron Foot-Lift Linky Plow for raising and lowering the heel. Why? Because a farmer's heel should be raised when the plow is in the furrow and lowered when it is out. With this plow the operator can raise the heel of the plow when it is in the furrow and lower it when it is out. This is done by means of a foot-lift mechanism which is operated by the driver. The foot-lift mechanism is a simple device which consists of a foot-lift lever and a foot-lift link. The foot-lift lever is attached to the foot-lift link and the foot-lift link is attached to the heel of the plow. When the driver pushes down on the foot-lift lever, the foot-lift link rises and the heel of the plow is raised. When the driver pulls up on the foot-lift lever, the foot-lift link falls and the heel of the plow is lowered. This is a very important feature because it allows the driver to adjust the heel of the plow to the ground conditions. This is especially important when plowing in uneven ground or when plowing in hard soil. The J. I. Case Self-Leveling Iron Foot-Lift Linky Plow is a very valuable piece of equipment for any farmer. It is a plow that will save you a great deal of money and a great deal of time. It is a plow that will give you a better crop and a better yield. It is a plow that will give you a better return on your investment. It is a plow that will give you a better life. It is a plow that will give you a better future. It is a plow that will give you a better world. It is a plow that will give you a better everything. It is a plow that will give you a better life. It is a plow that will give you a better future. It is a plow that will give you a better world. It is a plow that will give you a better everything.
