Mr. Tarte was evidently better informed than the Minister of Militia as to the conditions upon which the Third Canadian Contingent was to be dispatched to South Africa. Those conditions will be fair and proper subject for discussion later on. Meanwhile it is only due to Mr. Tarte to acknowledge that his paper was strictly correct, the Christmas box goes all right but the bill goes with it C.O.D. In justice to Dr. Borden it is fair to assume that at the time he spoke Mr. Tarte had not decided upon what terms the Third Contingent would be permitted to go.

Despatches the past few weeks have brought to light many gunning accidents and now the season of the year is at hand when we hear of so many drowning accidents. Most of the latter are caused by getting on the ice a little too early. It is painful to reflect how many lives are lost yearly and how much lasting sorrow is inflicted on the living by a certain recklessness in seeking pleasure. In summer we have reckless boating and bathing, in the fall reckless shooting and in the winter the adventuring on unsafe ice. It was only last Friday that two of Ottawa's young society people met their death in this manner. We would advise all our adventurous people not to make any adventure on any pond or lake until it is perfectly safe, for if you do you are taking enjoyment at the risk of a miserable death.

The reception tendered to the Prince and Princess of Wales in London last week was a brilliant affair. No foreign diplomats were invited and the occasion was made to emphasize the loyalty of the colonies and their devotion to Great Britain. In a statesman like speech the Prince spoke on the relations between the motherland and the colonies. He spoke in warm terms of the loyalty, affection and enthusiasm which in variably characterized the welcome extended to the Princess and himself throughout their tour of the British domains of 45,000 miles. He referred to the journey across Canada which enabled them to see something of the matchless scenery of our vast territory, the richness of its soil and its boundless prosperity.

After appreciation of the military services rendered to the empire by the colonies the Prince pointed out that if Great Britain wished to hold her own against the foreigner in the commerce of the world she must take advantage of the mineral wealth and vast expanse of virgin soil in the colonies and send the surplus population of her cities to live there under healthy conditions, liberal laws and free institutions.

By information received in regards to the smallpox situation in the county it can be said without any fear of contradiction that the disease is about stamped out in this county. Modern methods have been used in fumigation and now there is no fear. Mr. Roy's barge the Cornwall which has been in the stream of Kingsport has been thoroughly fumigated and is now at the wharf. Herbert Tupper's house at Scott's Bay, fumigated and family released from quarantine on November 13th, the schoolhouse at Walbrook, and the school books, properly fumigated on November 6th and the school opened, Simon Wood's premises at Woodside fumigated and released on November 26th, Mrs. Jerry Schofield Canning, released on Dec. 3rd, Stephen Harris at Sheffield Mills, released on Dec. 6th, Mr. Alonzo Steele's residence on the N. Mountain was released yesterday.

The universal expressions of sympathy for W. E. Porter in his recent severe illness has turned to joy at his recovery and the removal of his quarantine. Mr. Porter had a complication of diseases which nearly proved fatal and his strength was so exhausted that it will be several weeks before he will be able to attend to his business. His house has been most thoroughly disinfected and the most approved scientific method used.

Latest fad out birthday rings reduced from \$3.50 to \$2.50 at E. M. Arnold's.
