

**BEACH**

(From page 1)

Students should become the "Voice of the University" as the entire university community contributes to it. The *Brunswickan* becomes larger and more diversified every year.

Hand in hand with *Brunswickan* we have Radio UNB. Plans are going ahead now to construct an FM Station in the Student Union Building. With an FM Station, Radio UNB would play a vital role in the University by presenting us to the general community. Both Radio UNB and the *Brunswickan* require many students to run their operations.

In the past, students have played little part in academic planning in the University. For example, we have little to say about what course we take or what the content of our courses is. The Students' Council hopes that we can begin to make our contribution in this area through the Course Evaluation program which is planned for next year. This program will require the aid and co-operation of all students.

I have only been able to mention a few of the areas in which students can make their contribution to the university. There are many other areas where we can make a contribution. The best way to find out about them is to read the *Brunswickan* and go to Council meetings. Good luck in your activities both academic and extracurricular.
