

I Enclose a Sketch of Indian
Reservation With adjoining lands.
Now if the department will ~~exchange~~
exchange, either move the Indians
over on the lot bought from Foster
I can give them land in exchange
there ~~ex~~ Which would be much more
sheltered from the cold winter winds
than where they are at present
of for a consideration I will
exchange lands marked C/A Spruce 2 A
adjoining the Indian lands these
lands I had not thought of selling
but it will soon become of no value
With the Indians on both sides of it
the water would be their line
if they had this 2 A lot.
That would avoid lots of trouble
that now exists

Hoping you can make it convenient
to bring this before your proper authorities
and let me know what is the prospect

I remain

Pathe Landry
