

Cream Gathering Creamery

(From Farming World Editorial, Dec. 1st., 1904)

The cream gathering creamery has many advantages over the whole milk creamery that appeal directly to the farmer and it would be the height of folly to attempt to stem its progress under these conditions. We are pleased to note that our dairy authorities are taking this view. Future development in Canadian butter making will depend largely upon the success of the cream gathering creamery. There are in it possibilities of profit for the producer, that even the cheese factory in its palmiest days could not exceed.

Contains the things the dairy farmer should know and practice to the speedier attainment of a satisfactory income from his dairy and the pleasure and profit that comes of dairy work well and skillfully done. Beautifully illustrated; a book to be studied rather than read, to have its application in daily practice rather than lose itself in the mere knowing, to lead on to achievement rather than idly to entertain.

Such contributors as Hon. W. D. Hoard, President National Dairy Union; H. B. Curler, Chas. Y. Knight, C. F. Curtiss, C. P. Goodrich, W. A. Henry, and several others who are well known, is a guarantee of value. The price very low, \$1.00, postage paid. FREE for four subscriptions to THE FARMING WORLD.
