A Barn You Can Build Yourself

YOU can build or remodel your stable yourself if you equip it with BT Galvanized Steel Cows. Stalls and accept the barn plan service we offer. No high-priced carpenters to hire and board for days. Your barn will cost less to frame, yet have greater storage capacity and more accommodation for stock.

BT STEEL STALLS EASY TO INSTALL

We send you blue-print plans and cross sections, showing best layout for your stable, best ways for catch-stand, passages, gutters, etc. You can install the BT Steel Stall in two hours, with only a boy to help, for they can make it set up from our factory.

We'll Make the Plans

Write to-day for full details of this valuable service. Also get our valuable book, "How to Build a Dairy Barn," and Book No. 21, about BT Galvanized Steel Equipment. Either or both sent free for the same and address on a postcard. Write to

Bayville, Dec. 28, 1914.

Farm and Dairy, Peterboro.

Dear Sirs—It certainly pays to advertise. My pullets are all sold and could have a hundred if I had had them, as I am getting replies to my ad. every mail. Thanks.

Yours truly,

Mrs. Wm. Madrell.

Our good "Women Folk" on the farms are no longer satisfied with a mongrel flock of fowl. They want pure breeds. This explains the demand every season for birds for mating, eggs for hatching, etc., and the wonderful sales made by our advertisers of such. Moreover, "Our People" who keep pure bred dairy cattle, also like to have everything else on the farm well bred.

Farms and Dairy can get you in touch with these people. If you have eggs or pure bred fowl for sale. Our big Poultry Magazine Number will be out Feb. 4. Write us tonight about having your advertisement in it.

FARM AND DAIRY, PETERBORO

CANADIAN H.F. YEAR BOOK

The 1914 Year Book, containing a list of all official and semi-official butter and milk records of the Holstein-Friesian Association of Canada, is now to hand. The volume also includes a list of all record cows under their sires and under their dams with the proven sires of such sires and dams, also a list of record cows in each division. This tabulation should not fail to be of interest to every breeder who is trying to breed scientifically.

QUALITY OF HOLSTEIN MILK

While speaking at the banquet tendered by Mr. W. H. Cherry and W. J. Bailey of Hagersville, at the dairy cattle exhibitors at the recent Ottawa Winter Fair, Mr. John Hingham, of the Ottawa Dairy Co., expressed his belief that the industry profitably spend part of their funds advertising the merits of Holstein milk in the city daily papers. He pointed out that in Ottawa an agitation against the use of Holstein milk had been conducted in some of the papers—two letters on that subject having appeared in one of the city papers the day after the banquet. "There are some people," said Mr. Hingham, "who seem to think that unless milk contains above a certain percentage of butter fat it is inferior in quality. If the Holstein Association would make known some of the facts in its possession on this point, it could largely overcome this criticism."

AN UNPARDONABLE MISTAKE

"Mr. De Troon," (who is shortsighted), "Good morning, Mrs. Simkins. Your hand must be very fond of gardening. I saw him the first thing this morning doing in the bottom of the garden. And how well his books, to be sure!"

Mrs. Simkins turned her back and slammed the door in her neighbor's face. The latter, ashamed, went to tell her daughter.

"And you told her, mother, that the thing in the onion patch was her husband?"

"Of course I did."

"Well, that's not her husband, that's a scarecrow!"—New York "World."

Twenty-one milking cows in the Brampton herd of Jerseys were recently tested and the average per cent. of fat in the milk for the lot was 6.4.

FARM LUBRICANTS

THE Imperial Oil Company, Limited, manufactures at its refineries at Sarnia and Vancouver a complete line of lubricants especially prepared to meet the requirements of the Canadian Farmer.

Standard Gas Engine Oil, Prairie Harvester Oil, Capitol Cylinder Oil, Eldorado Castor Oil, and Arctic Cup Grease are brands which have been supplied to Canadian farmers for years.

They are known to be absolutely reliable lubricants—each carefully manufactured to meet particular requirements.

Each one carries the guarantee of the oldest oil-refiners in Canada.
