WE FIND down through the ages that the making of fashions and the making of fashions have gone hand in hand. The present era is no exception. There is a pronounced military air about many of the spring fashions, especially the suits. Close fitting, set, buttoned to the neck and trimmed with brass buttons, are much shown, as also severely plain blouses with high stiff collar and cuffs, with a touch of gold braid and buttons. The Russian boot is one of the latest style features, as it tends to be wrinkled and clumsy. It is not likely to meet with favor by those who are used to trim and neat footgear. The cloth top boot, however, will greatly worn, partly from necessity, imitations of leather from abroad is almost ceased. Some rather startling ones are seen in colored tops on the feet, and some in fancy shades being popular. While these shoes may be, their conspicuous they present quite an attractive appearance when worn with a suit to match.

25-Lady's Over Jacket, Bolero or Blouse are quite fashionable and here we see a style design which has a style in its own. This bolero is evidently made of contrasting material, although the skirt and jacket might be fashioned from the same goods and the blouse of white or cream. Size: 34, 35, 36, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

26-Lady's Dressing Sack: Pretty negligee always make a strong appeal to the feminine taste. Here we have a set of nightgown, consisting of bodice and dressing sack and slippers. The sack is in one piece and would be most suitable for use as a coming jacket. It is made from flannel, except trimmings with ribbon to match and dainty lace. Three sizes: Small, medium and large. It requires 1/2 yard for each pair for slippers and 2/3 yards for sack.

106-Girl's Dress: Simple but very pleasing is this little dress for mother's girl. Such a dress would be especially suitable for such goods as cotton, flannel, chambray, linen or other wash materials. Short sleeves and low neck make it most comfortable for summer wear. Four sizes: 6, 8, 10 and 12 years.

116-Lady's Apron: Here is a neat work would be just the thing for wearing during the housewifery days. The apron pocket will keep the dress clean and the work put on after the hair has been dressed lodging in the hair. Three sizes: Small, medium and large.

126-Lady's House Dress: One of the most attractive house dresses we have shown for some weeks is here shown. It is the latest style features, the skirt being a good width and the high rolling collar giving a chic touch to the blouse. Half a dozen buttons down the front of the blouse and skirt and a belt of convenience. Six sizes: 34 to 44 inches bust measure.

136-Lady's Dress for Misses: This pattern shows a simple stylish costume model for teens and small women. The blouse effect is being shown quite fresh this season with the wider skirts. In this design the collar is of the popular military style. If one wished to remove the plain draped skirt around the lower edge of the blouse and the ends allowed to hang down the skirt. Four sizes: 14, 16, 18 and 20 years.

146-Girl's Dress: Nothing is more attractive for the small girl than a dainty embroidery dress for summer wear. Here is one of our newest models. Even in the case of the small girl, it is a good advantage in this design. Colored buttons will make a nice trimming for the little vest. Four sizes: 4, 6, 8 and 10 years.
