HILLCREST SALE NOTES.

AVING sold "Hillcrest" we pur-
pose moving on a 50-acre farm, on
which there is no accommodation
for a mature herd. As we are
forced to largely reduce our herd, and
think thing to do, in order that we may

have a free hand in our building opera-
tions to sell the whole herd with the
exception of a few better calves from our
stock bull to serve as a foundation of
what we hope will be a future herd.
As we have reached the decision to
start that we purpose making this the
greatest sale of Holstein cattle ever
held off in Canada. To accomplish
this we realize that we must have a
uniformly better bunch to offer, in indi-
viduality, breeding and official produc-
tion than any other sale has yet brought
out. We are therefore putting in the
very best we have, and we know they're
good, because we've bred and worked
them. Four 50-lb. cows we know they're
20,000-lb. cows in R.O.P., several 20,000-
year-old, and all that a whole herd two-
year-olds in 7 days official test and over
85 lbs. milk in best day. Five 15-lb. he-
bulls, most of them with 20,000-lb. year-
vision of official or semi-official produc-
tion. Future issues will show photos of
many of the members of the herd just
as they are, and we will give more
individual information relating to their
production in official test.

In order to make it as convenient as
possible for every breeder to attend, as
sure of the very best sale accommodation
in the world, we are holding this sale at the
Union Stock Yards, Toronto, and trust
you will keep March 28th in mind as the
date on which these top-notch Holsteins
will be dispersed.
