

FREE LAND

For the Settler in NEW ONTARIO

Millions of acres of virgin soil obtainable free, at a nominal cost, are calling for cultivation. Thousands of farmers have responded to the call of this fertile country, and are being made comfortable and rich. Here, right at the door of Old Ontario, a home awaits you.

For full information as to terms, regulations and settlers' rates, write to:

Potato Profits

depend largely on how the crop is planted. Every skipped hill is a loss in time, fertilizer and soil. Every double wastes valuable seed. It means \$5 to \$50 per acre extra profit if all hills are planted, one piece in each. That is why

IRON AGE 100 Per Cent Planters

often pay for themselves in one season on small acreage. They also plant straight, at right depth, 8 to 24 inches apart. With or without fertilizer distributor. Ask your dealer to show you this Planter and write us for booklet, "100 Per Cent Potato Planting."

An Indestructible Concrete Fence Post

That WILL NOT ROT—RUST—BURN or HEAVE

Guaranteed for 100 years. Easily made and strong. Cost you about the same as cedar posts.

Our **ANGLE STEEL REINFORCEMENT** gives a post "Backbone Solidity." Without it Concrete Posts are unreliable. With one of our moulds you can make two hundred (200) posts per day. Posts are turned out in ordinary hardware or butcher's paper, which permits you to use concrete sloppy (which sets much stronger) and can be turned out the moment it has been made; the paper retains the moisture. Your posts do not require to be wet down.

One yard of sharp sand or fine gravel and 1 1/2 barrels of cement will make 50 posts of standard length.

Write for our free, illustrated booklet telling you all about it. Do not buy another post until you have investigated this.
