

When The Corn Is Ready To Harvest For Your Silo you want an ensilage cutter that saves as much labor and time as possible—a cutter that does not require a powerful engine to operate nor clogs when feeding either green corn or dry fodder fast. The machine you need is the

GILSON PAPEC Ensilage Cutter

The one blower cutter you can operate successfully with as small as a 4 h.p. gasoline engine. Not chain driven—there is no lost motion—heavy gears transmit all the power. The "Papec" cuts silage into fine and uniform lengths without stalling. The throwing, blowing, lifting force carries the silage rapidly up into the silo in a steady, full stream, distributing so it packs perfectly. This helps keep the ensilage fresh and sweet.
