Campbell's Riddle for Extracting Cockle and Wild Peas from Wheat.

6000 OF CAMPBELL'S MILLS NOW IN USE!

THIS RIDDLE EXTRACTS COCKLE

AND WILD PEAS FROM GRAIN.

The accompanying cuts represent the top view of Campbell's Patented Riddle for extracting cockle and wild peas from grain.

You will notice that there are three different sizes of perforated zinc on the top over which the grain passes. The size of the holes where the grain runs over first, is 1/4 of an inch, and the next size is some larger and by means of a Sheet Iron Slide, you can either close the middle holes or leave them open, according to size of cockle or wild peas you wish to take out.

The holes in the piece furthest out are 1/2 of an inch, and they let the clean grain through, down on the screen, just the same as an ordinary riddle.

This Riddle works grand, and farmers who desire to have clean grain to sell and clean seed to sow, will be well satisfied with it.

It will be in all of my Mills sent out after this date. The Mill is also fitted with Screens and Riddles for cleaning every kind of grain that grows.

The Mill has proved itself to be first-class in every respect, and farmers who favor me with an order will get a Mill that will give them every satisfaction, and it is second to none in the market.

GEARING INSIDE. SCREENS and RIDDLES ADJUSTABLE TO ANY PITCH.
