visit here has led to the prompt completion of the final arrangements, which will soon be carried out, and will be very satisfactory to the mercantile and, indeed, to the general public. Besides transfering the time ball to one end of the Custom House, the Marine Department will have a suitable structure erected on the other end to be used as a signal station. It will receive signals from Partridge Island, as to vessels coming into port, state of the weather containing and any other matters of interest to make the whole thing a success .- St. John town.

MARGESON & Co -Dear Sirs: Please accept this testimony from one who has been suffering for upwards of five years from Gravel and Stone in the Bladder, and was advised by my friends to try your Calculifuge. I did so, and am happy to say that after using the two bottles you sent me last summer, it entirely cured me. I passed five stones the size of small peas, and upwards of a wine-glassful of smaller ones and gravel, and will send them to you by the first chance. I would

advise all that are suffering with the same complaint, to secure your valuable medicine at once, as it has been the sole means of curing me. I will take pleasure in giving all the information I can to all that will call to see me at my house.

ANDREW CRAWFORD. MESSRS. R. C. MARGESON & Co.—Dear Sirs: I was a great sufferer for upwards of eighteen years with that most distressing complaint the Gravel. Tried many kinds of medicine as well as different Doctors, but got only temporary relief a short intervals. I saw your medicine advertised called Calculifuge, as well as different certificates from those who suffered with the same complaint. Feeling encouraged, I resolved to try it, and after taking three buttles, I found myself nearly cured, and am of the opinion that the fourth bottle will make a final cure.

Wishing you every success, I remain yours, (jy23—3m) JOHN DUMBRACK, SENR HALIFAX, Ju'y 18, 1873.
