The audience room is reached by two short flights of stairs with fine walnut balustrades, and entered by three doors from a vestibule the whole width of the building. It is 68x44 feet and is finished on the truss rafters down to the cord of the nave. The pulpit is a very handsome one, gothic in pattern, built of black walnut, and outside of it there is a handsome communion rail of semicircle form, also of black walsut. The choir gallery is behind the pulpit, and in a recess to the right stands the organ -a new and handsome one built expressly for this church by George Stevens of East Cambridge, Mass. It is decorated with pipes on two sides, and is a very handsome instrument, besides being powerful and of very fine tone. This gallery as well as the pulpit is entered by a stairway from the vestry. This entrance on one side and the organ on the other form a recess for the choir and pulpit, and the front finish on each side is of screen work. The pews are circular in form, of native ash, with black walnut trimmings. The walls also are wainscotted with ash. The cord which supports the roof, running the whole length of the building, is finished with casement and hanging beads, bracket finish and drops at the terminus of each span. There is a small gallery situated in an arched recess at the eastern end, which will be furnished with pews when occasion requires. The Audience Room is lighted by five windows of handsomely colored glass on each side. Over the choir gallery there is a circular window of stained glass 8 feet in diameter, and at the eastern end of the building there is also a large and very handsome window of colored glass. The dormier windows have been dispensed with and we think with great advantage to the general appearance.

son, who did the plastering, to Messrs. W. Robinson & Son for the glazing, and to Messrs. Atcheson & Sons, whose office it was by the aid of the brush "to beautify and adorn the work."

Through the kind and efficient assist ance of ladies belonging to the church, it has all been carpeted, and ready for occupancy, with every comfort, on the approaching Sabbath. We congratulate our Methodist friends on the re-erection of their beautiful church, and on their good fortune which has enabled them to rise above the severe affliction which befell them nearly a year ago.

POWER FROM ON HIGH. LUKE XXIV. 49..

DEAR SIR .--- I have read with much pleasure the "Mission news" from N. E. French Shore, N. F. L. Surely every lover of holiness will be cheered by the statement of Bro. McGregor, which I

readers of the WESLEYAN. "The most blessed feature of the

work is the spirit of holiness poured out upon a few of His people ; while preaching one night on "The altar that sanctifieth the gift,' having then to say 'go' not 'come up and possess the land.' 'The land of rest from inbred sin.' I was convinced we held it not, because

we did not expect it, by simple faith; we had an after meeting for 'holiness.' God changed our groanings (which I believe for the first time were in earnest) into praise, so that we were able to sav; our hearts are all praise, all meekness and all love, yet our lives had said, 'From inbred sin we never can be free, yet a few laid their 'all upon the altar.' The effects are felt in the family, in the house of prayer and in the lives of those who seek to have more of the mind of Christ : this is the sscret of our success."

Some of the blessed effects of following such a baptism as that spoken above, are found recorded in the life of the Rev. Thomas Collins, which I here give : At a prayer meeting held on the evening of March 5th, 1830, Thomas Collins, whose spirit for some time had been stirred with desire after holiness, was enabled to believe the cleansing

next day to his appointment at New Inn. Until then his sermons had always been too high-flown for my young apprehension, but the preaching of that afternon smote me with impressions that have never been erased. Six in that service found peace with God." This was the hopeful beginning of one of the purest revivalist careers of modern times.

O sacred union with the perfect mind ! Transcendant bliss, which thou alone canst give How blest are they this pearl of price who find, And dead to earth, here buried in thee too live. *****

DOCTRINES OF THE REFORMED EPISCOPAL CHURCH.

On the contrary, the Prayer-book of the Church of England, and of the Protestant Episcopal Church, having been put into its present shape under Char-

Moreover, these doctrines and principles of the Reformed Episcopal Church have come down to us through an uninterrupted succession of evangelical men in those two churches; men who taught substantially as we teach, who battled bravely amid the antagonisms generated by the Romish alterations of their book, and who preserved the faith of the gospel in its purity and simplicity, as though a river of clear water were flowing distinct and unbroken from end to end of a muddy sea. Nor has our Episcopal reformation been set on foot by mere novices, by men untried in the holy work of the Christian ministry, by men unknown to the confidence of the Church of God. We are not of those, indeed, who believe in the absolute necessity of any red-tapeism of arrangement in the Church of God. Instead, we think it competent for the people of God. whether cleric or lay, rising up in the majesty of their freedom in Christ, and protesting against the perversions of the gospel, to break off, even abruptly. whenever it may be necessary, from the historic continuity of any polity, and set the ball of reformation in motion. The arrangement for lighting in the evening is by means of "twenty-five gas jets on each side piercing the cord at the base of the roof, two on each Corinthian pillar, at the western recess, two on each side of the gallery, and one in front of the pulpit.

The building will be heated as before with two furnaces in the vestry. A description of the foundation, which is most substantial, formerly appeared in these columns and need not be repeated here.

The roof of the building is framed by a combination of truss work, running from front to rear. This is of heavy timber and bound together by heavy rod iron. It is sustained on four granite blocks imbedded in the wall, eight feet long, 20 inches wide and eight inches thick. These support the whole roof, so that there is no pressure on the wall plate.

Too much credit cannot be accorded to the workmen engaged in its erection, to Messrs. M. Hannah & Butler who finished the outside, to Mr. M. Hannah who built the stairs, to Messrs. Robt. Stevenson and Geo. Hannah, who had charge of the inside wood work, to

word; and in the strength of that faith, to bow his whole will utterly to Christ, to whom he surrendered all authority in his soul. The act of devotion was complete. Thenceforth life was a priesthood, and sacrifice a vocation. The altar on which self was dedicated sanctified the gift, and upon the living sacrifice which faith laid there, heavenly fire came down. The covenant that hour made was never revoked. "Not your own," was printed indelibly upon his heart. "His sister during his last illness, remarked to him with joy, upon his long testimony before the Church of the bliss and duty of perfect love. His reply was, "I got it, I kept it; I have it now, and it is heaven.

His brother writes : "The Saturday night upon which he received that blessing I shared his bed. Sleep I could not; he was praying and praising all night. Until this time-naturally with one to whom all literary work, whether of creation or correction, had become a joy-the productions of his pen had been too laboured. Simplicity that last of excellencies, was wanting. Gaudy adornings had cumbered the truth, and big words dimmed the ear more than given us. they reached the heart.

A change now, however, passed over his soul that made, for ever after, mere time wasting architecture of words abhorrent to him. " "I have done with it," he said. Quite right. It was too ingenious to be earnest. A man who throws summer-saults all along a road may prove to the crowd his skill in posturing, but cannot be in a hurry to get any where. Men do not so when they run to catch a train, or fetch the doctor

or find a fire-escape. Henceforth, hunting after what he called "figures and finery," was postponed for the pursuit of souls. His sentences became brief and his illustrations homely. Though he never lost his fine ear for a felicitous phrase, nor his quick eye for a beautiful image, yet his to appear abrupt. Every thing was
