

# THE HAYING SEASON IS HERE

EATON HAYING MACHINERY WILL GIVE YOU THE BEST SATISFACTION IN THE FIELD

The EATON "Imperial" Sulky Hay Rake is made for Service—strongly constructed, easily drawn on account of the large wheels, which are 54 inches high.

The automatic foot lift, as shown, is of the newest and most efficient design; a very slight touch of the foot will trip it, and the rake will drop a full load clear and clean. This is one of the largest capacity rakes sold to-day. The steel used throughout this "Imperial" Rake is of a very high quality and thoroughly substantial. This rake can be used with either one horse or a team, as the shafts are a combination and can be quickly placed together, making a good rigid tongue. It rakes a 16-foot width. Shipping weight 450 lbs.

97KP108—"Imperial" 10 ft. Sulky Hay Rake. Price, shipped from Winnipeg.

## The Importance of FRESH oil

Oil is composed of very small balls, or globules, which roll between the parts oiled—that is the action of lubrication. As soon as these balls become broken, as they quickly do, they are useless—worse than useless for they keep away fresh oil. That is why the old-time splash system of oiling fails—it uses and re-uses "worn-out" oil. Following the lead of big automobile makers, we use in the "Superior" Separator

"Direct-to-Bearings" Oiling System

Fresh oil is dropping on the important bearings all the time, and yet less oil is actually used in a year than with the "Splash" or "Dish in oil" system.

Write to-day for book of "SUPERIOR" Separator facts, showing why our machine is not only the easiest to turn, but skims the cleanest of all.

PEERLESS POULTRY FENCE

A Real Fence—Not Netting

Strongly made and electrically sound—meeting all requirements for poultry fencing. It is a real fence, not netting. It is made of heavy galvanized wire, and is so constructed that it will stand up to the most severe weather conditions. It is the only fence that will keep out all birds, and it is the only fence that will keep out all dogs. It is the only fence that will keep out all cats. It is the only fence that will keep out all mice. It is the only fence that will keep out all rats. It is the only fence that will keep out all snakes. It is the only fence that will keep out all insects. It is the only fence that will keep out all diseases. It is the only fence that will keep out all pests. It is the only fence that will keep out all evil. It is the only fence that will keep out all sin. It is the only fence that will keep out all hell.
