

Stick Out YOUR TONGUE!

What for?
Because it may save your life!
How?
It is the barometer that indicates the state of your health by its shape, coatings and colors.
For example?
Well, a pointed tongue indicates irritation and disorder in the stomach and bowels.
The full broad tongue shows want of proper digestive action.
The dry, pinched tongue is the tongue of acute disease.
The fissure tongue proves inflammatory action of the kidneys.
A dry tongue is evidence that the stomach and intestines cannot do much digestive work.
Coating of the tongue is the result of impure eating and drinking. The Liver is deranged.
The broad, pallid tongue shows a want of alkaline elements in the blood. It is a danger signal.
The deep red tongue, generally dry, shows acid.
Dryness always indicates nervousness, and diseases of the nerve centres.
Extreme moisture shows the reverse.
Be your own doctor. Examine your tongue. It will show you whether or not you are in condition to stand spring weather changes.
If you are not almost any disease may strike you down. Get in condition at once by using the latest and best spring medicine.

DR. CHASE VISITING THE SICK.

Raised from a Bed of Sickness.

Dr. Chase's Catarrh Cure and Kidney-Liver Pills Combined for Perfect Health—An Interesting Cure After Long Suffering.

Simcoe, Jan. 18th, 1897.
Messrs. Edman, Bates, and Co., Toronto, Ont.:

Gentlemen,—For over five months I was confined to my bed, not being able to move. The best medical skill was called in, all treating me for catarrh of the stomach, but to no avail. I could not eat the most simple food without being in dreadful misery, and found no relief until I was vomited up. After spending a large sum in medical advice, I was advised to try a box of Dr. Chase's Catarrh Cure. I said it was no use, for I considered mine a hopeless case from which I could not recover. At length I purchased a box from J. Austin and Company, Simcoe, and to my surprise found great relief. Not being able to eat I used a box of Dr. Chase's Kidney-Liver Pills; the pains left me the third day. My appetite has been fully restored. I consider myself perfectly cured, and feel as well as when a young woman, although I am 65 years old at present. I was almost a shadow, now I am as fleshy as before my sickness. Have used only three boxes of Dr. Chase's Kidney-Liver Pills, and only two boxes of Dr. Chase's Catarrh Cure. I can do my house work as usual. I am positive that my marvellous cure (which I think it is) is due purely to Dr. Chase's remedies, which I have used. I can honestly recommend the same to any persons suffering from symptoms similar to mine. Wishing you every success.

Yours truly,
MRS. ANN CRITCHFIELD, Etc.

Some valuable hints on sheep-raising.

Sheep-raising is one of the leading industries in Australia, and thousands of sheep are kept there, where only one is kept in Canada. The following advice to farmers, given by one of our Australian exchanges, will be of benefit to sheep raisers in this country:
"Every farmer should keep sheep. They help to clean the land of weeds, fertilize it, and give a profit besides, if the right sort are selected. The best sheep are those that will produce the most wool of good quality, and give the largest carcass. Where sheep are bred and kept extensively, size is not of so much importance. The smaller sheep, with a heavy fleece of superior wool, will pay better than a large animal with a light fleece, as these are shorn three or four times, and sold but once; and the wool each time extra, at 6d. per lb., would leave the farmer a gainer in the end. It will pay well to buy good sheep, even to sell again as good sheep. Will always bring a good price. Great care must be taken not to overstock, because if the sheep get poor the ewes will give less wool, and the lambs never grow to the same size as those that are well fed from first to last. Ewes with lambs require more food than dry sheep. In buying for breeding, old ewes should be selected, if the buyer is not a good judge of sheep—full mouth, or even older—as the young sheep are generally culls, with different classes of wool and other defects. The buyer of wool does not want four or five classes of wool in each bale, as he must sort it, and resell the kinds not required in his business. Therefore, he can give more for wool that is all of one class. Then suitable rams must be procured, and those can be hired from any well-known breeder if the farmer cannot buy. Small owners would do better to hire, as they can get a change more frequently, and need not be troubled with keeping the rams till the best season. Rams should not be used more than two or three seasons. For old ewes use four or six tooth rams, as they match better than older animals. Always get a ram with a good fleece, nice shape, robust, and a perfect constitution. Put the ewes, when lambing, in a paddock by themselves, if possible. After lambing is over, shift the ewes from place to place, as they do much better when changed in this way. When the first lot of lambs has been got ready for shearing, cull out a few of the worst of the ewe lambs and old ewes and sell to the butcher. At the next shearing, cull again, culling out those that have any defect, and keeping close to one class of wool. By breeding only from the best in a few years the flock will be a good one. I have noticed that those who did not breed sheep, but only bought, appeared to make very little out of it. In buying sheep there are more risks run, which cause losses, or make the farm dirty with weeds. Sheep pay the pastoralists, and surely they ought to pay the farmer, who not only supplies his household with meat, but also has the wool, and can sell a number of lambs to the butcher at a good profit every year."

BORN.

Dickson—In Carrick, on Wednesday, Jan. 11th, the wife of W. Dickson Jr., of a son.

Liquor License Act.

NOTICE is hereby given that Henry Rietz has applied to the License Commissioners of South Bruce, for a transfer of the hotel licence of the Railway Hotel, in the village of Mildmay, and the same will be considered at a meeting of the License Board at the Queen's Hotel, Walkerton, on Tuesday, 24th January, 1899. James Bryan, Inspector.

Buffalo and Steel Disc Harrow

This is the only Disc Harrow made or sold in Canada, having independent adjustable spring pressure upon the inner ends of the gang discs. Allowing any amount of pressure to be thrown upon the inner ends of the gang, by the foot of the operator. By this means a perfectly flexible action is secured, and the ground can be worked to a uniform depth. Examine this Machine carefully and compare with others.

The No. 12 Cultivator

AS A MARVEL OF SUCCESS. The only Cultivator made that both lines of teeth will cut an even depth in the ground. Examine it and you will see why. The only Cultivator with a movable tooth set so that the angle of the teeth can be regulated to suit any condition of soil. Pressure can be regulated to act differently on every section requiring it. The teeth are carried between the wheels instead of being behind, as in other machines, thus securing better draft. This machine is furnished with grain and grass seed box when required. It has reversible diamond steel points for the teeth; also, extra wide chisel-cutting points can be furnished. Examine it and you will buy no other.

The Best Drill Made.

The Hoosier Needs No Introduction. Over 40,000 Drills and Seeders of our manufacture are in use in Canada. The only Drill made with lever for adjusting and perfect regulation of depth of hole in all kinds of soil, while team is in motion. Sows absolutely correct to scale. Sows seed in every kind of soil deposited at proper depth to grow. Purchase only the best and you will be satisfied. We also manufacture Binders, Reapers, Mowers, Rakes, Cultivators and Pulpers of good as the best. Send for illustrated catalogue.

FACE BLOTCHES

are particularly disagreeable because they are noticeable and apt to cause comment. Purify the blood with Scott's Sarsaparilla and remove them. All this class of diseases, as well as blood putrefaction and bone decay, are usually of scrofulous origin.

Scrofula

and scrofulous complaints of all kinds, blemishes, pimples, blood eruptions, biliousness, dyspepsia, indigestion, heart disease, syphilis, or rheumatic troubles cannot be warded off in the spring if the system is not put in good order.

A Boy's Life Saved

"One day my little boy, aged 7, got a fall and hurt his knee. Inflammation of the knee joint set in and the decay of the bone of the leg rapidly followed. Doctors removed over a hundred pieces of decayed bone, but the process of decomposition continued. All attempts to stop it failed. The boy had but a few days' life before him according to all human expectations. Mr. Denham, druggist, Petrolia, advised me to try Scott's Sarsaparilla. I did so, and not only saved but completely cured my boy."—JOSEPH DUNCAN, farmer, Lambton County, Ont.
Doubters may write either Mr. Duncan or Geo. Denham, druggist, Petrolia P.O., for verification of these facts, then they will immediately purchase a bottle of
