TWO BOYS' EYES DESTROYED

Two BOYS' EYES DESTROYED At the noon how on Tuesday, at the Poole school several boys were injured through the explosion of a dynamite percussion cap. Teddy For-back had obtained one of these dan-generation of the second second second second a match with the result that frag-ments flew in all directions, one piece striking Abraham Poetcker, the son of a Russian immigrant, who came out last October, in the pupil of the eye, and the likelihood is that the sight will be ruined. Milton Neu-meister was also struck in the eye, while the back of Walter Manz's hand was lacerated with another piece and he also received a cut in the abdomen. The Poetker boy was brought by his father and Mr. An-drew Zehr to, Milverton, but Dr. Nicklin, after an examination of the eye, ordered him to be sent to a specialist at Stratford. The Neu-meister boy was taken to Dr. Glaist-et who had him sent to a specialist at Kitchener. It is feared that both bys will lose the sight of an eye. Som years ago another Forbeck boy suffered through an explosion at is face as a result. There should be an investigation into the matter by the trustees to see where the boys are obtaining these dangerous ex-plosives.—Milverton Sun.

A SHEAF OF SAGE SENTENCES

There are all sorts of ladders by

There are all sorts of ladders by which to climb in the world, but, so far as we have observed there is none of them that does not require to be scaled one rung at a time. "There is plenty of room at the top" they say. Therefore help the other fellow to reach it with you. Talking about ambition to get up in the world, we have noticed that it is most often realized by the chap who has the energy to get up in the morning. the morning. Never make the mistake of think-

ing that you have to use dollar signs in order to spell success. The fellow who regards a job as nothing more than a meal ticket is in

danger of going hungry. The survival of the fittest is, in a large degree the rule of life, but remember that it lies within your power to make yourself fit to survive

LAKE HURON'S SHORE

(Kincardine Review) With the break-up of the ice one notes again the havoc that has been made to our shores largely through the diversion of water by the Chic-ago Drainage Canal. One may walk lakeward for two hundred yards ov-er stones that were not visible a few years ago. Harbors that cost the country millions to make and main-tain are now useless. Private piers built by cottagers along the lake are inland piers now. But apart from the utilities, there is the de-facement of a shore that was so beautiful in days gone by. A waste facement of a shore that was so beautiful in days gone by. A waste of rocks and stones it is now. Its glory has departed.

No field is over crowded for the man who can think for himself and is not afraid of hard work.

Impatient users of the telephone are to be punished in Paris. Calls are to be numbered as they reach the exchanges, where they will be dealt with in proper order. In the event of a subscriber losing his tem-per and rattling the receiver-hook, his turn will be placed at the end of

JUDGEMENT RESERVED IN AUTO CASE

A Toronto Italian landlord recent-(Kincardine Review) Judge Sutherland spent a day last week hearing evidence in the case of Irwin vs. the Township of Kincardine. On a Sunday evening in June last about nine o'clock Emerson Ir-win of Ashfield, near Lucknow, was motoring home from Kincardine win of Ashfield, near Lucknow, was motoring home from Kincardine with a young lady. On the South Line in front of Orr's farm there was a bridge being rebuilt. There was a bight on the right hand side which he took to be a car or a farmer's lantern. He put on the brake down the incline of 75 or

into the excavation of eight feet depth. He and the young lady es-caped without injury but it cost him \$120.00 to repair the machine and he sued to recover that amount. His evidence was supported by Sam and Alex. Stewart. The defence put in evidence M. D. McCreath, Joseph Anderson, Earl Avery, John Mc-Kenzie, Charles Worthy, Ab. Convay Dan McAulay and Clarence Bridge. The defence was that there was a contributory negligence on the part contributory negligence on the part of the driver of the car. The plain-tiff argued that the light should have been a red one hung in the middle of the road with another one at the side to indicate the detour. The Judge reserved decision.

NICE DAY

HANG THE LAW ON HIM

brake down the incline of 75 or 100 feet and did not notice the rail across the road until he was five feet from it. He applied his emer-ant and her children were forced to gency brake but the car ran through the obstruction, over the bank and into the excavation of eight feet derth. He and the young lady es-

land in Toronto jail until he decided to obey the court

The open-faced violations of the law by dagoes, and foreigners of all descriptions are becoming daily more flagrant, and it is about time justice put her foot down on the larger portion of it.

WELL PUT

In an address last week in the In an address last a dvocating Datario Legislature advocating laims of small-town hospitals, a-nong other good points Hon. Dr. Ontario mong other good points Hon. Dr. Jamieson made were the following: "While many committees, as well as other interests, have from time to time made investigations and re-ports on the high cost of living, -I believe it would be desirable and believe it would be desirable and proper that an investigation be made into the high cost of dying. I am sure every member of the Leg-islature realizes that under modern conditions, when a case of illness occurs in a family and nursing and medical attendance have to be had according to the latest ideas of the prevailing fashings it becomes prevailing fashions, it becomes burden to secure the services of burden to secure the services of a high-class surgical specialist and a corps of registered nurses. Then, if the patient happens to die and a fashionable funeral is held by one of these newly-named undertakers or functeral directors or morticians followed by the tombstone man, the savings of a life-time of an ordinary citizen will disappear—even before the estate falls into the hands of the lawyers."

President Coolidge of the U.S.

In Hanover the new hospital has In Hanover the new hospital has a hard time trying to finance opera-tions during the past year. In ap-plying to the Council for a special grant to help tide them over their financial straits, the trustees stated that they had to place a mortgage of \$5000 on the hospital in order to meet current liabilities.

Here's the way an American contemporary sizes up the need situa-tion: "What this country needs is indignation. When men are sore life and fate, talk not the bright life and fate, talk not the bright to-morrow; they want to meet up with a skate who languishes in sorrow; their miseries they would compare, their scalding tears they'd- mingle, and walk the floor and rend their hair, and make the welkin tingle. So let them teeter to and fro, and in their sorrow languish; there is a renture in such wee a solare in such what this country needs is not a new birth of freedom, but the old-fashioned two-dollar lower berth What this country needs isn't liber-ty, but less people who take liberties with our liberty. What this country needs isn't a job for every man, but a real man for every ish. needs isn't a job for every man, but a real man for every job. What this country needs isn't to get more taxes from the people, but for the people to get more from the taxes. What this country needs is not more with a discussion but more miles to their sorrow languish; there is a rapture in such woe, a solace in such anguish. But when you see them spring once more a smile of latest model, confront them by the Blue Front store, and talk your sunshine twaddle. We have a solar to be a miles of territory, but more miles to the gallon. What this country needs is more paint on the old places and

less paint on the young faces. What this country needs isn't a lower rate of interest on money, but a higher interest in work.

Thomas Slee, a former resident of Allan Park, and one-time manager of the Brigham Telephone System through Bentinck and Normanby, was found guilty of conspiracy to commit arson, before Mr. Justice Riddell at Whitby recently and sen-

Aldoen at whitey recently and sen-tenced to twelve years in the King-ston Penitentiary. The jury return-ed a verdict of guilty after being out only 30 minutes. Slee protested his innocence, claiming he never plan-ned with anyone to burn the general store of one Bartlett, at Zephyr, last fall. William Hills, a prisoner at store of one Bartlett, at Zephyr, last fall. William Hills, a prisoner at Kingston testified to the effect that Slee paid him \$50 for setting fire to Bartlett's store, stating that the reason given him by Slee to have the premises destroyed was that Bartlet was his only competitor.

VHY GRADE CROSSINCS

on dreary days we only want compan-ionship in sorrow. There is a time for everything, for borrowing and loaning, there is a time to dance and sing, and there is a time to dance and ning. It is a scene of unmixed bliss when grouches get together, and sigh and weep and hoot and hiss and cuss the beastly weather. They're having such a bully time, before the clouds are clearing. And it would be a sordid crime to bring a message cheering. It is a blunder, nothing less, to hand them consolation; there is a comfort in distress, a balm in indignation. When men are sore at Constant is the battle for eliminaion of railroad grade crossings, particularly the more dangerous or Meantime, realroads keep building added 3554 crossings, bringing the total almost to 260,000. While these were added, only 1130 crossings were eliminated.

The excuse, of course, is in the big cost of constructing tracks above or below the levels of intersecting roads and streets.

The crossing problem is multiply-ing, not shrinking.
