the trip from New York to Jacksonwille. It would have done you good to see us register at the hotel. We, still retaining the rolling motion of the vessel, had to cling to the counter in order to write our names. We took in Jacksonville, and Monday afternoon left for Palatka, 75 miles on the doctor's care.

Miss Lucy Gedkin has been very stown of Jacksonville, up the St. John River, and on our trip much enjoyed the romantic moonlight scenery, arriving at Palatka at 8.30 that pight. After remaining a day at that pight. After remaining a day at that pight. After remaining a day at that place, I left may friends and took steamer brook at 8.30 Wednesday morning. Obtained employment at the Sanford Variety Works and went to work that afternoon and remained with that firm for three months I am now working for the South Florida R. B., A. B. the finest in the country, called the Ponce de Leon, cost \$7,000,000. The Tampa Bay hole at Tampa is escend, having cost \$3,000,000. Winter Park has a fine house and you can find them all over the country with accommodation as good as at the best hotels of the land. Sanford has two good houses: the Sanford House, \$3.00 per day, with several smaller houses at \$2.00 per day. Common board co-ts from \$4 to \$6 per week. At the Ponce de Leon you pay from \$30 to almost any price you want. When you take dinner you are assigned a room, and when you pay it is \$10. You pay for the accommodation, not for what you get.

Lemons, banannas, figs, dates, poncies, persimmons, pine apples, grape fruit, all grow here. I saw a cabbage that weighed 16½ ib. Straw berries are now ripe and sell at 25c. per quart. Irish potatoes are 45c per peck; sweet potatoes, 85c; flour, \$7 per bbl.; butter, \$5c.; butterine, 25c. Now, Mr Edther, I am getting pretty lengthy, so I will bring my letter to a close, thanking you for space in your wide-awake paper, which is perused very closely by its many friends.

Nothing Succeeds Like Success

The Reporter Now Printed Wholly in This Office By Steam Power on Our New Wharfedale Press.

The above cut gives a very fair representation of our new Wharfedale press, which weighs in the neighborhood of four tons. While the press was being set up, many of those who drepped into the office shook their heads dubiously when told that we expected to run it with our little Acme coal oil engine (a correct cut of which appears beside the press), they deeming it an impossibility for so small an engine to have sufficient motive power to run so ponderous a machine. When all was in readiness and the belt attached it was surprising to see with what ease it handled the whole mass of bed, cylinder, cams and slides. In passing, we might mention that our Acme coal engine (manufactured by John Gillies & Co., Carleton Place, Ont.) has been in constant use in this office for over six years and to day runs as smoothly and noiselessly as the day it was started, and at a cost of less than fifty cents a year for repairs. From the above cut those who have never seen one can form some idea of the engine and the immense to power it exerts according to its size and weight. Two men can easily lift the whole boiler, engine and attachments, the boiler holding less than three pails of water when running. But the great desideratum with the little Acme is the low cost of running. After six years trial we are certain that 30c. worth of fuel oil will furnish motive power sufficient to run any ordinary press for a period of nine hours.

A few words to our patrons and subscribers may not be out of place just at this time. In order to make our present change we have expended upwards of \$1,000 cash. We have done so feeling satisfied that those who are indebted to us, either for job work or subscription, would appreciate our efforts to give them one of the best local papers in Eastern Ontario, as well as to turn out a superior quality of job work, and would promptly settle their indebted to us, either for job work or subscription of the Reporter we have met with many cheering words of commendation as well as practical proof of appreciation
