Something About **Binder Twine**

Farmers who intend placing their orders for Binder Twine should not take any Twine unless they know some, thing about its brand. There will be a great deal of cheap, rough Twine on the market this coming year, and farmers should bear in mind that they have no way of discovering this until they come to use it, when they are really too busy to have any mistakes rectified.

We are selling the well-known brand "Our Superior" that we have sold here for 3 years and which has given universal satisfaction. We guarantee that the twine will be the same this year as last, hence, farmers will be perfectly safe in ordering it.

Last year some dealers sold a so-called Superior Twine, but it was not the genuine article, as Our Superior Twine is made by the Plymouth Cordage Co, and every ticket on the balls bears their trade-mark on the back, viz, a sheaf of grain. No twine that has not this trade-mark on the back of the ticket is genuine "Our Superior Twine."

Farmers, remember this and do not allow yourselves to be imposed on We are now taking orders for Binder Twine and are guaranteeing the price against any decline or advance up till the time you take your twine home. Our aim has always been to give the farmers a good working twine, and we think that considering the quantity we sell, there is no firm in Canada who receive fewer complaints.

Goldwin Smith Interprets the Term !

This sudden development of imperialtatic tendencies and disposition tropical annexation on the part of the people of the United States, which takes world and probably most American by surprise, bas naturally turned attention to the British Empire as a precedent and a possible model for imperial adminintration. It is little to the discredit of the Americans if they have failed distinetly to understand that which is by no means distinctly understood by many

The terms "colony" and "empire," "colonial" and "imperial," promiseuous fusion. The Indian empire is not a colony. plies autocratic dominion, whatever the internal constitution of the imperial power may be. The Athenian republic was an autocrat. and a tyrannical autocrat (as a democracy is apt to be) in relation to its insular dependencies. The Roman aristocracy was an autocrat, in relation to the conquered world. Great Britain herself, practically a republic in the guise of a constitutional monarchy, is an autocrat in relation to India. In India the Queen of Great Britain is an empress. In Great Britain she is a constitutional queen, but her representative in India, the Viceroy, governs the Hindus with autocratic sway. The civil service of India is a bureaucracy under an auto-crat entirely separate from the civil service of Great Britain. On the entire separation of the two fields of govern ment, the two services and the two sys terns, depend on the one hand, the pos-sibility of governing India, which would otherwise be fatally involved in the party

otherwise be fatally involved in the party politics of the imperial country, and, on the other hand, the immunity of the politics of constitutional England from the contagion of an unconstitutional rule. "Spheres of influence," like the "white man's burden" and "duty laying hold of destiny" are a convenient addition to the vocabulary of aggrandizement. China, a country with 300,000,000 people, at least half civilized, highly industrial, and intensely national, is being "pegged out" into "spheres of influence" by the great predatory powers; and if the Chinese presume to resist, they will be shot down by tens of thousands as "rebeis." Spheres of influence may be placed under the head of "empire."—From Imperialism—England as a Model, by Goldwip Smith, D.C.L., in Self Culture.

Telephone Pointers-

One of the many good points of a Telephone is that a message cannot fail to reach its hearer correctly. Another good point is that it reaches all points, and that everybody in the City or Country worth doing business with has a Telephone. Another good point is the economy of time and money. Another point—can you afford to be without one, at home or office?
