Pinchard's Island Appreciates Services of Mr. A.G. Parrot

Says all Fishermen are in the Union Now.

(To the Editor)

Salvage Bay, B.B.,
March 9, 1918.

Dear Sir,—The enclosed letter was received a few days ago from Pinchard's Island Local Council, and it asks me on their half to seek publication of same in the columns of The Weekly Advocate. Would you grant space to same in the columns of your valuable paper, and oblige,

Yours truly,

A. G. PARROTT.

P.S.—I was teacher at Pinchard's Island for 2 years (1916 and 1917).

Pinchard's Island, B.B.,
February 28, 1918.

A. G. Parrott, Esq.

Dear Sir,—Your unexpected letter to hand. The whole Council was surprised and every one looked panic stricken when your letter was announced. All were anxious to hear it, and while it was being read silence reigned supreme. When I had finished, hearty cheers and claps were given for you. The Council through me wishes to thank you for your kind consideration of us and the valuable help rendered us by you during your stay with us. Your stay was altogether too short; but short as it was much good was done both in school and society. Our school when taken by you during your two years' stay it was in a lamentable condition but went ahead by leaps and bounds, (as can be seen by the Exam. results).

We have still a warm place in our hearts for you and it is not our wish you are elsewhere to-day. Had the Council had it in its power to hinder your leaving us, you would have been our teacher to-day. We, as well as the general public, appreciate the good work done in our midst and can recommend you as a "teacher" in word and deed and not only a teacher but a "worker." My friend, we regret our loss, but our loss is someone's gain. We ask you to come back with us again as our teacher. We know we cannot pay you fully (as we wish to do) for your work, but whatever lies in our power to do for you will be done. You are our choice. The door is open. Friend, will you come?

We are glad to still keep your name on our roll. We cannot forget you as long as you remain true to us. We are expecting a visit from you at your earliest opportunity and you had better make up your mind to stay and finish your good work begun.

My friend the "fire" between Union and non-union is about quenched as can be seen by the increase of our roll. The one time non-union folks now see clearly that Coaker can't lose and that he is our only salvation from the graball enemies.

Behold the old things are passing away,
And all things are becoming new.

We had our parade a few days ago and had a splendid time. The good ladies on that day provided a most appetizing supper and all did justice to themselves and enjoyed themselves heartily. We realized at night the sum of forty dollars (\$40.00).

We are glad to tell you we are now starting a new Union Hall which is to be 45 by 25 feet with 11 feet post. (I know you rejoice in such an undertaking).

The Rev. Mr. Hiscock favoured us this year greatly by giving us

the school room for our parade free of cost. (This is a help towards our new Hall). For his kind action we thank him heartily.

Wishing you and yours a pleasant Spring and hoping for your return.

On behalf of Council, I am,

Yours truly,

SANDY HOUNSELL,

Ch. Local F.P.U. Council,
Pinchard's Island.

Fishermen, Get Aboard the F.P.U.

Brookfield,
March 15th, 1918.

(To the Editor.)

Dear Sir,—Please allow me space in your most highly and esteemed paper to let the public know that Brookfield is still active for the Union. I notice that members are still being added to the roll. I say, "Well done, fishermen." Get on board the F. P. U. There are no dangers as long as we have such a man as our esteemed President to fight for us." I say, Sir, it is for us to stand shoulder to shoulder to back our esteemed President in his mighty work. Anyone can see that Mr. Coaker is fighting for the liberties of our Island home. We have been down-trodden long enough. Now Coaker is come to uplift and to free the under dogs. Now, fishermen, in order to get freedom, we must stand shoulder to shoulder and pull together. Then I say great things can be accomplished. The Union fire will never be quenched. It is running like a stream into the hearts of the fishermen, which will enable them to fight for right and freedom. Mr. Editor, Brookfield is a very small locality, but I guess its votes will count when the time comes to mark their X's. Come on Lloyd, Abbott and Winsor, you are the men that Bonavista Bay toilers will support. I tell you, Sir, it will be no good for any man of the soft job class to come here to look for votes. I wonder who is coming to face such a band of F. P. U. stalwarts as there are in Bonavista Bay. We'll have a job to get any one to face us.

Yours truly,

A UNION MAN.

We never had a captain Till this man Coaker came, He is our great commander And we will put him through, And crush all opposition With the noble F. P. U.

Now how can we get freedom, boys, If we never try, With twenty-six thousand stalwarts, We'll boldly march along, For Coaker is our captain And Freedom is our song.

I must conclude and finish, But these few words I'll say, The F. P. U. of Newfoundland Has come this way to stay, To plead freedom for the toilers Of every single bay.

Now if you want to find my name, Just turn to the alphabet, My 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Then 11, 5, 1, 14 which will conclude my name, Now if you cannot find it I sure am not to blame.

NOTICE

To Owners and Builders of Vessels of all sizes and classes being built in Newfoundland, that I am in a position to turn out **Composition Pintles and Braces** of the very best material and workmanship, as my past patrons can verify.

When ordering, give thickness and depth of stern-post, and thickness of rudder outside to outside—we allow for letting in. We also make all patterns for same.
