Hartland United Farmers Co-operative Ltd., wish hereby to advise all those expecting to purchase Timothy and Clover seeds to enquire of their merchant before purchasing the grade or test of No. 1 Government Standard seeds. Many farmers have been much surprised and have told us that they were ignorant of there being more than one No. 1 Government Standard seeds. They thought No. 1 was No. 1. Because a bag of seed is marked No. 1 Government Standard does not necessarily prove it contains first quality seed, as the government tests and passes and brands different tests as No. 1. For instance you may see two bags of seeds standing side by side in a store, each bearing No. 1 Government Standard, also test numbers. One bag might be priced \$5 per bushel, the other \$5.50. The test or quality of seed makes the difference in price. Farmers Store can sell you good No. 1 Government Standard timothy for a lot less than \$5, but the lot quality of No. 1 Government Standard cannot be landed in Hartland for \$5. Our books show that over ten thousand dollars worth of seed passed through this branch last year.

Eight months ago Aroostook county had eight newspapers, now it has only five. Is it not this mortality of 37 1/2 per cent a rather large one? It simply shows how difficult a thing it is nowadays to keep up the publication of a newspaper. If you don't think so, try it. As is well known, the Aroostook newspapers that have gone out of existence during the past eight months are: The Daily News, Houlton; The Ashland Gazette, Ashland; the Mars Hill News, Mars Hill; Fort Fairfield Review.
