BY SPECIAL REQUEST.

BY SPECIAL KEQUEST. At the request of many of their pat-rons, the management of the Mountain Park Roller Rink has re-engaged for every evening of this week Prof. Hector De Sylvia, who is acknowledged to be the most graceful skater in the world on rol-lers. During the past week De Sylvia's ex-hibitions of trick and fancy skating made a big hit with the devotees of the rollers, and his every appearance on the floor was the signal for a round of ap-plause.

The worst has happened, John!" anted Mrs. Jipes, sinking feebly into a chair. "Well, we'll have to advertise for an other one; that's all," moodly answered with the above and the above above and the above and t

been achieved by Dash, the smooth-hair-ed fox terrier which accompanied Dr. M. A. Stein, the archaeological explorer er ship could be found. She sustained no other damage other than in the bows. No news of the vessel with which the Zeeland collided had been obtained, but the crew of one of the boats lowered by the liner declare they saw her vanish-ing in the fog, and it is presumed that she was not badly damaged. throughout his great journey of miles, undertaken on behalf of dian Government, through Central Asia

WAS THE HILDER COLL Shields, June 21.—The British steamer Hartlepool arrived here to-day badly damaged. Her starboard how had been cut down to the water's edge after col-lision with an unknown steamer off Dover Saturday. It appears certain that the Hartlepool is the vessel that collided with the Zeeland.

mices, undertaken on behalf of the In-dian Government, through Central Asia into China and back. Though the aggregate of the marches amounted roughly to 10,000 miles in two years and eight months, the actual dis-tance covered by Dosh, taking into ac-count his canine habits of progression, may be estimated at well over 20,000 miles. Dash made that journey on foot practically the whole way, except when he went "pony back" for short distances at times of great heat. When in the Taklamakan desert Dash, like the rest of the party, had his water allowance strictly limited. It came from the sup-ply carried on camels in the lorg of zec. Dash went over mountain passes as high as 18,000 feet above sea level. Throughout the journey the dog kept well and his menu was made up of scraps from the camp larder. Each night he slept in Dr. Stein's tent, and on oc-casions proved himself a very useful watchdog. On the high Tibetan uplands his chief recreation was chasing wild donkeys, yaks and the like. He manag-ed to kill several harces and bring them in to supplement the store of food. Upon many journeys along the Indian Northwest frontier, Dash has also been the comrade of his master, and he has probably seen far more of the world than most people. He has true British terrier blood in his vens, although In-dia was his birth place. The dog is now in quarantine after having come from India.-London Daily Mail. Quebec, Que., June 21.—The storm of Friday night and Saturday morning caused considerable damage to the stea-mer Campana, ashore at St. Vilier. An effort will be made Wednesday to float the vessel, although some doubts are ex-pressed as to the success of the effort. Daily Deach Service. Notwithstanding the repeated notices regarding our Beach service time-table, we frequently receive orders too late for delivery on the day of receipt. Our wagon leaves daily between 7 and 8 o'clock in the morning (never later than 8), and on Saturday at 1 o'clock. Pat-rons would do well to remember this, placing their order the preceding day to ensure prompt service.—Deebles, Hobson & Co., Limited.
