Encouraging Crop Report. Last Saturday the Toronto Empire published special reports from six hundred places, covering the whole Dominion regarding the state of the crops. The prospects for a splendid harvest for nearly everything are most cheering. In Ontario there will be the greatest yield in all classes of grain known for years. Roots failure, except in a few western counties.

In Quebec hay is a heavy crop and grain is above the average. Reports from the Maritime Provinces show the outlook to he humorous a resident of with an above the average. Mr. Editor, I have much pleasure in and ambitious little town. I would rather be one of her sort of folks, passing through the word sowing flower seeds, than to be the greatest scholar, poet or statesman that ever lived. Karely has a woman lived in this world who has not at some period of her life listened to a friend's or a lever's estimat; of her beauty Who Pretends to be the or her worth. But beauty fades, and even wit and wis lom gather about them the dust and cobwebs of time, and when you and I come to die, when the final curtain falls and one by one the lights go out and questions, "How did he or she stand in society, or in clubs, or in church formulas; what great cause did they champion, or what high-scunding reform advance?" His gospel, however, is much more dewhat high scunding reform advance?"

that will shed lustre on our memory so much as the answer to this simple query;

"What did they do to make life sweeter to the people who lived nearest them? What influence did they have in the world to change tears to smiles, and heart aches to peace?"

Perhaps some of us will lay down in our grave by and by finding it a very welcome place of rest after life's to persuade Edward James to give up his calling. There are lots of little ways to aweeten up life which half the world is aiways forgetting in greater schemes for happiness. Sympathy is a small thing to bestow, but it is a veritable 'life sweeten er.'
