Plucky Act.

What came near being a drowning fatality was barely averted, by the plucky action of a boy named Dillon, this morning. A boy named Palfrey, in trying to cross from Goodridge's to Murray's wharf. No one, but Dillon, was near at hand, at the time, and he immediately took off his coat and vest and plunged into the icy water and caught Palfrey by the collar and kept him afloat until they were rescued. Some ten minutes later, by the men about the place who by accident discovered their predicament. When taken from the water Dillon was nearly exhausted but was gamely holding on to his companion.

How He Escaped An Operation

And Was Completely Cured of Piles of 14 Years' Standing by Dr. Chase's Ointment.

Mr. Chas. Beauvais. Doctors say that about one person in every four suffers more or less from piles, and who can imagine a more annoying, torturing, disagreeable ailment?

After trying a few treatments without success, and as the ailment grows worse, the medical doctor is consulted. An operation, he says, is necessary. You think of the suffering, expense and risk to life itself, and hesitate before taking such a step.

In many thousands of such cases Dr. Chase's Ointment has made thorough and lasting cures. Read this letter for the proof.

Mr. Charles Beauvais, a well-known citizen of St. John, Que., writes:—For 14 years I suffered from chronic piles, and considered my case very serious. By the use of a celebrated doctor who could not help me and ordered a surgical operation as the only means of relief. However, I decided to try Dr. Chase's Ointment, and obtained great relief from the first box. By the use of three boxes I was entirely cured. This is why it gives me great pleasure to recommend Dr. Chase's Ointment to all who suffer from piles. Dr. Chase's Ointment, 60 cents a box, all dealers or Edmundson, Bates & Co., Limited, Toronto.

The Taxpayer.

The whole year round old William Wax reminds us that he pays his tax. The sum he pays is pretty small, yet paying it stirs up his gall, and freezes, cold as Arctic pole, the genial current of his soul. Because he pays a measly pound to make the blooming wheels go round, he thinks those wheels should always go, as he directs, now fast now slow. The government should always pause before it fashions any laws or votes the blowing of a cent, to see if old Bill is content. He thinks he has the right to roast whoever holds an important post, to pound the tolling statesmen's backs because he pays his trifling tax. He writes long letters to the press in which he voices his distress, and shows that rascals are in vogue, that every statesman is a rogue. The quiet man who early whacks up twice as much as old Bill's tax, too busy is to rant and paw, and swear there ought to be a law. The tears still stream down old Bill's jowls; the less he pays the more he howls. It never occurs to Old Bill Wax that other fellows pay their tax; he bears the crushing weight alone and fills the air with grunt and groan. In every hamlet William dwells and jabs the welkin with his yells, which daily on the eardrums grate of those who really pay the freight.

Life in a Coal Mine.

The Nickel's features last evening included a thrilling yet interesting story of "The Black Wall" or life in a coal mine, showing how two children became lost while taking their father's dinner. It is a picture which pleased everybody. On Monday night the great Irish drama: "Arrah-na-Pogue" will be shown. This was acted and produced in Ireland and received wonderful praise from the press and people.

B. W. Bates, a Londoner, believes he has doomed the old-fashioned shooting gallery to the scrap-heap. He has invented a moving picture target, showing birds and beasts in life motion, also projecting many objects on a screen at which the experts may try their eye and gun.

LONG DELAYED.—Yesterday a resident of the city received a letter from Bell Island which was long delayed. It was stamped as having reached the post office here at 11 a.m. Thursday, but was not delivered at his house until 6 p.m. yesterday. He would like to know where the delay occurred.

LONDON, April 25.
The spoils of war taken by the Montenegrins when they entered Scutari, included 46 quick-firing cannons, and 12 howitzers, with a number of heavy siege guns.

CARDIFF, April 25.
"Votes for Women" were the words painted on a bomb found this morning by a patrolman on the doorstep of Lloyd's Bank, in this city. The fuse was burning when discovered. It was pluckily seized and extinguished by a policeman.

HAMBURG, April 25.
Two men are dead and three are dying out of eight workmen, who were injured in an explosion of benzine last night, on the new Hamburg-American liner Imperator. The accident was caused by a workman filling his pocket cigar-lighter from the benzine tank. Two thousand workmen were aboard, completing the cabins in readiness for the trial trip, in which the Crown Prince is to take part.

PITTSBURG, April 25.
The rescue parties at the Cincinnati mine have brought thirty-three additional bodies to the north slope. Ten other names have been added to the missing list. The loss is officially placed at 115. The bodies were found buried under a fallen roof. It is thought that all the bodies will be recovered later, and will be found under masses of fallen rock. It may, therefore, be several days before the exact loss can be determined.

BERLIN, April 25.
Owing to the lifting of the ban on the German air-craft, officers of the German active army were notified to-day by the War Office, that they are forbidden to participate in future private flights or competitions, involving any possibility of crossing the foreign frontier. Major Abercorn and Lieut. Voight are compelled therefore, to withdraw from the German elimination contest for the selection of representatives at the Gordon-Bennett trophy contest, to be held in France in the Fall.

WASHINGTON, April 25.
British Ambassador Bryce to-day laid down the office which he has held for more than six years, and left for New York on the homeward voyage. To-night in New York he will say farewell to the United States at a dinner of the Pilgrims' Society, and on Monday will meet his successor, Sir Cecil Spring Rice, who is now on his voyage across the ocean. Mr. and Mrs. Bryce go overland to San Francisco to sail to Yokohama on May 2nd touching Honolulu. They will spend some time in the new Chinese Republic, and then proceed to London by way of the Siberian railway.

LONDON, April 25.
The suffragettes' reason for threatening to blow up the residence of Mr. Blair, M.P., near Harrow, is, according to the Standard, because he defeated Mr. Lansbury, the suffragette advocate, at the bye-election in Bromley division last November. They tried to hold a meeting at Harrow last night, amid great disorder. The speakers could not be heard. Pepper, snuff and chemicals were scattered through the hall, and the police had all they could do to protect the women, when they departed. The suffragettes made an attempt to wreck the Northumberland County office at Newcastle-on-Tyne last night by means of a bomb. The damage done was small, but the caretaker had a narrow escape.

BRUSSELS, April 25.
It is estimated that over half of the Belgian workers, who took part in the strike for equal suffrage, have now returned to their employment, but resumption has been irregular in some parts of the country. Some of the Trade unions have decided to order the men to begin to-day; others to-morrow, and others on Monday, while a few are determined to stay out till May 1st. Disagreeable surprises met the strikers at several factories in the suburbs of Brussels. When they appeared at the factory gates this morning, ready to recommence work, all the old employees were refused admission, and were told they were discharged.

RILLINGTON STATESMAN,
Registered No. 1717.

Examined and warranted sound and free from all hereditary diseases and defects by Erwin Murray, M.R.C.V.S. to His Majesty the King, June 12th, 1912.

The Cleveland Bay, a hardy, powerful, yet fairly light and swift animal, originated through a blending of the powerful charger of the middle ages, with the more active Barb and Arabian. The Cleveland Bay has lots of quality and substance with well defined snouts, large, clean, flat bones of a density equalled only in the Arab and thoroughbred. His long lineage gives him prepotence in impressing his splendid characteristics and soundness of constitution.

Rillington Statesman, registered in England, was bred among his native hills in the Cleveland Valley of Yorkshire. He is an excellent specimen; color, deep, rich bay, height 16½ hands, weight about 1400 pounds. His action is high, free and open, his stride long, temper perfect; he is in all respects a perfect general utility horse, a free cheerful roadster, sure-footed, fearless of all objects and with marvellous endurance. He needs only to be seen to be admired—used to be appreciated.
