Five Year Old Lad Starts Motor Car.

A five years old boy, resident of Rennie's Mill Road, received a good scare yesterday and narrowly escaped being killed as a result of tampering with a motor car. The latter, it appears, was standing at the head of Prescott Street, when the lad got in and in some way started the car going. It shot over the incline, and meeting an obstruction the youngster was thrown out and had his head badly cut. This should be a warning to children not to tamper with

The following gentlemen have also consented to become Directors:-Hon. Tasker Cook Mayor of St. John's. J. P. Kiely Proprietor Nickel Theatre

Newfoundland Films, Ltd., has been formed for the purpose of producing a Newfoundland screen story, under the direction of Mr. Ernest Shipman, a Motion Picture Producer of world-wide repute. While the principal characters will be drawn from the Motion Picture centres of the United States, the minor roles will be selected from local talent.

Ernest Shipman . . . Motion Picture Producer

The Newfoundland picture will convey to the world the beautiful scenic attractions of this Colony, and thus advertise this country to prospective tourists and others. Millions of people will see Newfoundland on the screen.

The public are demanding nature-made outdoor productions in place of the time worn studio-made fashion plate dramas, and a good reception is assured the Newfoundland film story.

The extraordinary financial success of "The Sky Pilot", "God's Crucible" and "Cameron of the Royal Mounted", all produced by Mr. Shipman, give some indication of what we may expect. The takings of "The Sky Pilot", which has been released but a short time, now exceeds one quarter of a million dollars, and is estimated to gross \$750,000 when the returns are in from all countries.

In addition Mr. Shipman has produced film versions of three of James Oliver Curwood's Stories, which have already grossed receipts of over one and one half million dollars,

Mr. Shipman is confident of a ready market and when the Newfoundland picture is made and released in October, it is anticipated the Company will receive in cash from \$75,000.00 to \$100,000.00. This would enable the Company to return the original capital to investors—who would, however, continue to share in the profits during the life of the picture, which is at

A limited number of Shares are offered to the general public at \$100 per Share. The Directors, however, reserve the right to refuse further subscriptions, if they consider that sufficient has been subscribed for the purpose of the Company.

Copy of Prospectus will be sent on request.
