## Spring Impurities Clog The Blood

A Tonic Medicine is a Necessity at  
The Season

Dr. Williams' Pink Pills for Pale People are an all-year-round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season of the year when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give new strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time, when all nature takes on new life, that the blood most seriously needs attention. Dr. Williams' Pink Pills actually renew and enrich the blood, and this new blood reaches every organ and every nerve in the body, bringing new health and strength to weak, easily tried men, women and children—Here is a bit of proof: Miss Anna Patterson, R. F.D. No. 1, Thorold, Ont., says:—

"My trouble was one of general weakness, which thinned my blood and gave me at times unbearable headaches, loss of appetite and also loss in weight. I tried several medicines, but without success. Then I heard of Dr. Williams' Pink Pills and decided to give them a fair trial. The result is that I feel like a new person. My appetite improved, I gained in weight, my blood is thoroughly purified, and my face cleared of some unsightly pimples which had troubled me. If one good turn deserves another then I have much pleasure in recommending Dr. Williams' Pink Pills."

If you need a medicine this spring try Dr. Williams' Pink Pills—they will not disappoint you. These pills are sold by all medicine dealers, or you can get them by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

mer resident of this place, and who returned from France three weeks ago renewed old acquaintances here last Sunday.

### REAL RECREATION

The recreation which leaves you tired, unfit for the next day's work should be avoided. Either it has been overdone or is the wrong sort. Recreation means making over, you know, not unmaking or breaking down.

A good, healthy weariness is not objectionable. Many a girl comes home so tired from a long walk or an afternoon of skating, that she finds it necessary to make a very early start for bed, and falls asleep almost as soon as her head touches the pillow. But by morning she is alert and rested and her mind acts quickly. Her sense of fatigue has passed, proving that the recreation of the previous day was worthy the name.

The recreation which makes you sleepy and stupid at school next day, or nervous and irritable at home, is the sort to avoid. No girl should be ambitious for good times which unfit her for doing her work, or for being an agreeable companion in the home and outside. There is plenty of real recreation to be had, recreation which builds up, instead of tearing down. Seek that sort and leave the rest alone.

## L-O-S-T

Just picture the grief of some child at the loss of his or her beloved "Doggie."

To them it is the greatest loss that could possibly come into their little lives. We believe that right down in the heart of every man, woman and child is a natural desire to do for others what they would have others do for them.
