Says Methodism Is Declining. New York, Feb. 10.-Rev. Dr. J. R. Buckley, editor of the Christian Advocate, of this city, caused a sensation at a meeting of the Methodist preachers here today. The previous speaker, D. D. Thompson, editor of the Northwestern Christian Advocate, Chicago, had spoken in a most enthusiastic way, declaring that there had been a million and a half converts made by the Methodist church in the past four years. Dr. Buckley disputed the accuracy of these figures. He declared that statistics showed Methodism actually is declining, in some of the eastern conferences at any He believed in looking at the facts, and he declared it was a grievous mistake to take an over-optimistic view. His statements were vehemently opposed by other members of the

Ottawa, Feb. 10.-The Government, it is understood, has under consideration a proposition from the Canadian Pacific Railway Company in regard to the selection of the 3,300,000 acres of its original main land grant which remains to be allotted. The company expresses its willingness to accept 2,500,000 acres in the arid belt between Calgary and Medicine called the Manitoba and Northwestern Reserve. This reserve consists of about 1,200,000 acres, which formed part of the land grant made to the Manitoba and Northwestern Railway Company, but reverted to the Government when the company failed to earn it. The arid land which the C. P. R. desires to obtain is, of course, useless at present, and can only be rendered fit for cultivation by irriga-tion on an extensive scale, which means Write to him TODAY if you are afflicted, and he will send you free his book and question blank for his Latest Method Home Treatment. The transformation of a waste of 2,500,000 acres into cultivable land would, it is estimated, create homes for 10,000 farmers. This would probably mean a purely agricultural population of at least 50,000 persons, whilst the location of this number of persons in the arid belt would number of persons in the arid belt would necessitate the establishment of other industries to minister to their needs, Friends of the C. R. main line, and at present yields no revenue to the company Peopled with active, industrious and thrifty agriculturists, it would furnish considerable freight and prove a most profitable feeder to the C. NORTH GREY PROTEST

Conservative Petition Against M. Mackey Filed.

Owen Sound, Feb. 9.-A petition was filed with Mr. W. A. Bishop, clerk of the high court, here yesterday, protesting the election of Mr. A. G. Mackay (Liberal) as member of the Legislature for North Grey. The petition was filed by Mr. W. S. Middlebro, solicitor. Owen Sound, on behalf of Mr. George M. Boyd, the defeated candidate, who appears as the petitioner. General charges of bribery and illegal practices covering breaches of almost all the sections of the election act are made, and the prayer is for the annuling of the election and the disqualification of Mr. Mackay. The filing of the petition was looked for here, as it was understood to be a part of the Conservative programme, but the Liberals of the riding are not taking the matter very seriously.

Cornwall Under Water.

Cornwall, Ont., Feb. 10.-Cornwall vas visited by a small-sized flood this afternoon, which, although not of as serious a nature as that of 1887, nevertheless did considerable damage, and forced several families to flee from their homes. At 3 o'clock the ice be-gan to shove, and by 4:30 had risen to within 3 feet of overflowing the canal bank. The water came up so rapidly that some of the help in the Stormont cotton mill were compelled to get out without their clothing, and several were forced to make their exit through the cloth room windows. Five gas buoys belonging to the Government, were carried away. Lorneville, the eastern portion of the town, suffered the most, several families being flooded out and their property greatly damaged. The lockmen at Lock 17, were also forced to flee. The steamer damaged. Princess Louise, which was in the drydock, was sunk. At 5 o'clock the water began to recede, and the weather is moderating, which may have the effect of preventing a more serious

President Eliot On Marriage. Boston, Mass., Feb. 10. - President Harvard University, today made public his annual report to the board of overseers. After giving vital statistics to show "that the highly educated part of the American people does not increase the population at all out on the contrary fails to reproduce tself," he says: "It is probable that the regrettable result is due in part the late postponement of marriage on the part of educated young mena postponement which the protracted education now prescribed for men who enter the learned and scientific pro-fessions made almost unavoidable." Of athletic sports in general, President Eliot says there is increasing objections to their great exaggeration.

Rubino Gets Penal Servitude. Brussels, Feb. 10.-Gennaro Rubino, the Brussels, Feb. 10.—Gennaro Rubino, the Italian anarchist, who has been on trial here since Feb. 6, charged with attempting to assassinate King Leopold, Nov. 15, by firing three shots at his majesty, while the latter was returning from the cathedral after attending a Te Deum in memory of the late Queen Henrietta, was found guilty today and was sentenced to imprisonment for life at penal servitude. A WIDE SPHERE OF USEFULNESS.—The consumption of Dr. Thomas' Eclectric Oil has grown to great proportions. Notwithstanding the fact that it has now been on the market for over twenty-one years, its prosperity is as great as ever, and the demand for it in that period has very greatly increased. It is beneficial in all countries, and wherever introduced fresh supplies are constantly asked for fresh supplies are constantly asked for.
