#### Goodbye to the Mosquito.

There is a water plant, known as the Chara Hispida, which thrives in many of the streams of Spain that is inimical to the mosquito. And an effort is being made to make use of this plant in the work of mosquito eradication.

Bobbed Hair

Is becoming to most women, but it is important to remember that the combing and brushing of long hair actually stimulate the scalp, while with bobbed hair this stimulation is lacking.

If hair is bobbed, frequent massaging of the scalp is absolutely necessary and splendid results are obtained by applying a small quantity of Newbro's Herpicide with each massage.

Pure and clear, without stain or dye, Herpicide may be used with absolute confidence, to stimulate the scalp, prevent dandruff and falling hair and as an aid to hair-health and beauty. A single trial will convince you of its merit. On sale at all drug counters.

## Strawberries are here!

-why not make the most delicious jam or jelly you ever tasted?

Take full advantage of the bounty of orchard and garden. You can now convert strawberries into perfect jam or jelly with but one minute's boiling, and you can preserve that fragrance and delicacy of fresh, fully-ripened fruit which disappears under long boiling.

You can now make jam or jelly with fruits that never would "jell"-the strawberry, pineapple, cherry, etc.

Certo, the jellying property of fruit, is the

Certo is pure, concentrated pectin, the jelly making substance of fruits. It contains no gelatine nor preservative. The Certo process not only makes better and a greater variety of jams and jellies than the old process, but reduces cost per jar; no fruit juice is boiled away, and 50 per cent. more jam or jelly is obtained.

Use Certo with every fresh fruit available. Make a lot of jam and jelly this summer.
