Tighter money conditions resulting from the drop in the excess reserve of the associated New York banks last week restricted buying to a few foreign government and domestic public utility issues, which had reached attractive price levels. Railroad liens failed to keep pace with the upward movement of the carrier stocks, a few issues being strong, but profit-taking checked the advance elsewhere. ctive practiled to keep pace filed to keep pace filed to keep pace for the carrier stocker of the carrier stocker of the carrier stocker of the carrier stocker of the carrier of the carr

Winnipeg, Dec. 7.—Smashing all previous records, the wheat market was strong and exceptionally bullish today, and early in the session was 3%c to 6c above the previous close, December Feaching a high of \$1.67, May \$1.68½ and July \$1.65. There was considerable profit-taking on the bulge, and prices fell away closing 2c to 3%c up, with May, the active future at \$1.66.

Trade volume was quite large during the first hour, but smaller later. The Lews from all quarters was of a bullish character, inducing active buying by public speculators. Export trade was light. The trade, however, looks for a broad demand from foreign centers shortly. The weather in the west is favorable for the crop movement now.

The coarse grain markets all displayed a stronger tone, but the trade volume was not large. Some investment buying was in evidence. Rye and flax featured with closing gains of more than 4c.

RUTTER AMP EGGS

Chicago, III., Dec. 8.—Unexpected weakness of quotations at Liverpool, together with new Argentine crop estimates widely at variance from some that were yesterday put forward, led to an early downturn today in wheat prices here. Today's estimates figured the Argentine exportable surplus at 13s,000,000 to 140,000,000 bushels. The opening, 1½c to 2½c lower, new style, was followed by upturns that on some transactions lifted the market to the same as yesterday's finish.
