Bonnets That Cost From Ten to Seventyfive Dollars-Flowers and Spangles Used on Everything-First Communion Dresses-Elaborate Chiffon Parasols.

Copyright, 1895, by American Press Associa-

I think no person having the love of a beautiful dress which can be utilized humanity at heart could blame the later for other purposes. One gown was woman whose soul longs for an unat- of white serge, fine and close. This must mean to a woman, who, just be- had two rows of white lace insertion cause she is a woman, loves all beauti- around the skirt. The waist was full ful things, to see such bonnets and hats and made with a yoke outlined with sees a dainty dream of beauty and men-

EASTER BONNETS.

tally sets that above her curls, and imagines herself in it, but reality shows her her pinched face under the shabby thing of two seasons ago. It is cruel, and I wish some one would start a society to provide women with spring bonnets free of cost, or at least at a price making one a possibility. The bonnets are so little and the trimming is so small that it takes a new kind of arithmetic to find out how the price can be so large for so small an article. .Ten to \$75 is the cost of a mite of a bonnet, the price largely depending upon where it is bought. If on Sixth avenue or Fourteenth street, where competition is sharp, a bonnet sells at its minimum. If it is bought at one of the semiprivate swell houses up town on Fifth avenue

or Broadway the maximum is reached. Today and yesterday and the day before I gave up entirely to bonnets, and my eyes are dazzled with their beauties. There are lovely wide brimmed flats in leghorn and fine French chip. These rough straws. These have the brims in themselves, yet by some subtle qualthe hats have the crowns in the beef eater shape-that is to say, the upper part is larger around than the lower. There are some "sunburnt" straws, with fluted borders of lace straw. I saw some of these in black also. They are very light and appear becoming. The soft flats are turned up at both sides and bent down in front and have masses of flowers on each side. One very elegant one had quantities of pink oleanders and their foliage on each side, drooping down quite low over the hair. In the front there were two crushed bows of velvet, one cherry color and one white. The hat was of gray chip.

The sailor shape for young people is still a favorite, and there is a great variety of straws with brims generally recalling the sailer form, but yet each showing some slight difference.

In bonnets the variety is even greater. The straw shapes are no larger than doll hats, and the crowns are often of the most pronounced beef eater form. To these are affixed the trimmings. These may be flowers in springtime abundance, or they may be ribbon, feathers, velvet or lace with spangles. Spangles, by the way, are seen everywhere. The most usual manner of using them is to sew them to net foundations, in the form of butterflies, humming birds' wings, dragon flies or such fancies. ity of the orient they seem to belong low than high. Osprey aigrets are em- obtrusive or inharmonious.

One lovely bonnet was of rough sun-

CLARE BUNCE.

By a Woman For Women. Mrs. Emma D. Mills of New York has prepared a valuable book of typewriter forms. There are forms for letor an eld woman. The old one would will not be at loss how to word any matter that she is called on to prepare. Mrs. Today I saw some very pretty first Mills consulted lawyers to make sure communion dresses, and as it will not be that the legal and commercial forms long from now until the day when the were correct. The book also contains streets will be full of sweet young girls valuable tables for reference. The util-

Governor Budd of California, that good friend of woman, has appointed by the result of the or for the new woman! provide the wreaths and vells at a fair state normal school at San Jose.

A WOMAN OF TODAY.

WHY SHE HAS ENTERED THE RANKS OF LABOR.

Faced Bravely—The Widened Sphere.

The new woman marks an innovation in the feminine world more significant tainable bonnet. Just think what it reached to the ground all around and not fair to deride this fin desicole prodthan mankind is able to realize. It is what she is. It is customary for men in as are displayed in the windows and lace insertion and a pinking of white sphere is the home;" that her highest high places to tell her that "her proper know that she cannot buy even one. She taffeta. There was a wide sash of white aim in life is a bountiful reproduction taffeta glace, and a little white silk of the race, and that to the monotonous chatelaine hung by narrow ribbons. The rock of the cradle and the never ending sleeves had drooping puffs and insertion stitch of the needle must all her high sewed around the forearms of the and holy ambitions be sacrificed. In other words, they tell us she should become a household machine, an automafrock had the full waist and sleeves of ton to supply the family needs, with never a thought of the indwelling soul that requires but the touch of the magic wand of love to waken it into life, that soul which, when aroused, responds to humanity's needs as the soul of man

But it is irony of the cruelest kind to talk or even to think of woman in such a restricted light. Tracing down through past ages, what do we find? What does across whose fair foreheads the legend 'woman' was written. It is not the past, however, with which we have to endless perplexities and struggles.

If home is the place where alone ought to be easy to evolve dainty gowns | woman should shine, might I ask how many of the earnest, thoughtful work-The new parasols are draped with ers of the current era have homes? Are chiffon and silk crepons just as full as not the majority already struggling for the top will accommodate. I saw two the barest existence-often, too, with

the top and extending downward were enters the ranks of laborers merely to points of painted flowers in delicate gratify a passing whim or to exploit tints. The black parasols, which are some special fad. Moreover, in this age made of silk crape, are very showy. The of progress and advanced thought, why edges are always smooth and guiltless should she be relegated to the rear rank of ruffles or fringe. One or two of these in the march of progression? Conditions, had a few painted blossoms put on both social and economic, have forced with a sparing hand. Dresses are also her into the competitive arena, and once there she has learned to make the most of her opportunity. It would indeed be strange if it were not so, for allied to a keenly analytic mind woman to a pecul-

iar degree possesses enduring patience. It is true that women, as a class, are impulsive, but it is impulse born of intuition. The same might be said in re- plishment for children. The consciousgard to our methods of reasoning. The ness of being able to dance well gives mind of woman achieves results through different processes from those of the young man and woman who would mind of man. He, it seems, must reach a conclusion by slow logic, while she inlittle people usually delight in the little people usually delight in the bound and often without knowing exactly how. Thus, while man's actions bined with late hours it does them nothare governed solely by sluggish reason, ing but good, says a writer in The La those of woman are largely due to quick intuition.

The new woman has had a hard battle to fight, for in most instances she has been greatly misunderstood. She is generally regarded by conservatives among her own sex and most of the male contingent as a pushing, aggressive creature devoid of all those divine qualities which constitute female lovableness. This is a mistaken attribute with which to endow the new woman, for she oftentimes—in fact, it is the rule -turns out to be the daintiest bit of femininity imaginable. A positive will allied to earnest effort does not necessarily indicate a large, masculine, forbidding looking woman.

Comparisons are frequently made between the women of the present day and those of past decades, frequently to the disparagement of the former. Grandma. I confess, was a dear, lovable old lady. Strictly proper in every sense of the These are spread out widely and rather with everything else and never to be side ministering contentedly first to the word, she was content to sit by the firewants of her children and afterward to ployed to add lightness and feathery The simple little matchsafe shown is those of their children. But we must faithful helpmeet from the slightest At any of the shops devoted to orien- passing storm of life. Grandma did not

A HOUSEHOLD SCRAPBOOK.

if Carefully Made, It Will Prove a Conrenient and Valuable Reference Volume. A scrapbook with the pages already mucilaged is very convenient, but if one Woman-Her Hard Battle-A Significant from the binding, every other six leaves, Innovation Conditions Which Must Be through the entire book. For convenience in referring to clippings the book [Copyright, 1895, by American Press Associa- like the following: Animal, vegetable, may be divided into sections something mineral, political, social, domestic, foreign and miscellaneous, allowing, say, ten pages to each section, or, if one is apt to have a greater number of clipuct, for circumstances have made her pings in one section than in another, greater or less number of pages may be allotted, as the case requires. A few pages can be left for biographies and pictures that accompany such sketches. A further subdivision of these sections

may be made, if desired, for example: The "vegetable" section may be class ed garden, flower and forest, and the others similarly. Thus, with an index on the first page, one can refer to a clipping without a moment's delay. Now, after the clippings have been

carefully trimmed, dampen the reverse side with a slightly moistened sponge if the first named book is used, but if the atlas a mucilage brush is necessary. Be particular not to wet overmuch, for in either case the moisture will coze from the edges of the clippings, and the inevitable smeared and torn page is the result. A dry cloth should be used to press down clippings and absorb excess moisture.

Clippings accumulate very rapidly, and after a two weeks' delay it is no slight task to catch up again, and it is therefore best to paste every evening. The author of the foregoing, a correspondent of The Household, also intimates that a scrapbook in the family may be the means of assisting the mother to determine the inclination of a child's mind.

She says: Give each child a scrapbook and instruct him to fill it with whatever material he likes best, and one will contain a preponderance of animals, another machines or flowers or historical notes, as the mind inclines.

Physical Culture.

In walking the heel should not be brought down too firmly. A part of the weight of the body belongs upon the toes, and when a due proportion is thrown there it gives an elasticity to drove to the park. the gait which is lost when it is not properly distributed. Walking with the heels raised from the ground is a good exercise, although a fatiguing one. Hopping on each foot alternately is another. Dancing is a valuable accomease and self possession to many a dies' Home Journal, who adds:

All outdoor games that involve running and active movement of any kind are useful adjuncts in physical development. An immense amount of exercise is taken under the guise of diversion. Battledoor and shuttlecock, which was long a favorite amusement, is a capital indoor game where there is room to play it and might be revived with advantage. Bean bags, colored bags filled with beans and aimed at a ring or other mark, and the form of quoits played on shipboard with rings of rope may be utilized to furnish exercise on rainy days. Especial attention should be paid to ventilation when the children are exeroising indoors. The respiration is quickened, the lungs demand more air, and there should be a plentiful supply of oxygen to meet it.

Recipe For Lemon Pie.

Into 11/2 cupfuls of sugar stir 2 heaping teaspoonfuls of flour, add the well beaten yolks of 6 eggs and the whites of 2 beaten stiff, the juice of 2 lemons, the grated rind of one, and a cupful of cold water. Line 2 deep pie plates with paste, fill with the mixture and bake in a moderate oven. When done, cover with a meringue made from the whites of the 4 eggs and a cupful of powdered sugar. Cover the pies and brown light-

One Way to Fry Oysters. Take large fresh oysters and drain. Have ready a plate of sifted cracker crumbs, in which mix a teaspoonful of salt. Take one oyster at a time, roll in the cracker crumbs and lay on a board. Let remain ten minutes, dip in beaten egg, roll in the cracker crumbs again and let stand 15 minutes. Drop in boiling fat and fry brown. Serve very hot.

A Picture Back. Provide a whitewood foundation. Cover and drape the outside with ruby plush. Set off with gold gimp and

NEWS OF THE PROVINCE.

(Special to the COLONIST.)

VANCOUVER. VANCOUVER, April 13 -Mr. Scott, one of the Canadian manufacturers who went to Australia on the steamer Warrimoo, spoke enthusiastically to the Colonist correspondent of the prospects of Canadian trade | Hon. J. C. Patterson to Govern Maniwith Australia. Owing to the depression the demand for machinery is not active Mr. Scott shipped several carloads of car riage furnishings to Australia via the C. P. R., and with the special rates afforded by that line he considers he can make pre fitable shipments. Goods get to Australia quicker via Vancouver than by New York. The Canadian Rubber Co., of Montreal placed an order for goods aggregating £10, 000 a year with Sydney firms alone.

VERNON (From the News, April 11.) Without any evidence of public excite ment, the nomination for the vacant positions in the city council was held on Wednesday. It was thought at one time that a contest was probable; but Mr. W. C. Pound refused to allow himself to be nominated for the North ward, and therefore the three candidates were returned by acclamation as follows: North ward, A. G. Fuller and Thomas H. Milne. South ward, Fred H. Barnes. Mr. Fuller will bring to bear upon his duties an experience acquired during his term of office as a member of the first coun cil after incorporation The other two alder-men have had no previous experience of this nature, but they are well known as enterprising citizens of sound judgment. On Sunday afternoon the new Presby terian church at Lumby was for the first time opened for divine service. A number

had driven up from this city, and the nea little church, which is a credit to Lumby, was well filled with an attentive congregation. The dedicatory service was conducted by the Rev. G. A. Wilson, B. A., whose indefatigable efforts are responsible in a large degree for the fact that the church as been erected. On Tuesday morning Mr. J. B. Donald, who was last week committed for trial on the charge of falsifying and mutilating the books of the firm of Riley & Donald with fraudulent intent, appeared before Judge Spinks at Kelowna, having elected to be tried under the speedy trials act. Mr. Fred Billings conducted the case for the prosecu tion, and Mr. A. Macdonald appeared, as before, for the accused. After the evidence

had been taken, His Honor in summing up he case said that no evidence had been pro duced to show that the alterations and eraures made by Mr. Donald were done with intent to defraud. As a partner he had a perfect right to draw out money from the business and charge it to himself. If he had drawn more than his share, that matter must be settled between the partners in another manner, but not in a criminal suit of perton to burn alive fifteen Japanese laberthis nature. The evidence could not be accepted as proving an intention to defraud the creditors. He therefore dismissed the case. Mr. Donald was sincerely congratu-lated on the happy termination of his crouble by his friends, many of whom had all through the case expressed their conviction that he had been guilty of nothing more serious than such errors in book-keep ing as any inexperienced man is liable

TNION.

(From the News, April 9.)
