ROYAL OPERA HOUSE. "Old Shipmates" is still the attraction at the Royal opera house. The more one sees of this play the more it can be appreciated. It possesses many, very many points that are indeed clever and interesting, and which are well brought out by Mr. Mor daunt and his company. The performance as a whole is one of merit, and deserves the patronage of all lovers of good plays well acted. Mr. Charles B. Waite, who so ably personates the chracter of Dan Denny, was more at home in the part last evening than was the case on the two previous evenings. The other characters require no special mention, as each one in previous issues was treated separately. All that need be said is that they fully sustained the good criticisms which they have

so far received from the press of the United States and Canada. The petite and pretty heroine of the play is Miss Ina Clayton, and not Miss Isabella Maslin, as was previously stated in this paper. The young lady cannot be more than sixteen years old, yet her appearance esting and nigety of yet her appearance, acting and nicety of manner add no small amount to the attrac tiveness of the entertainment. STOCK OF BOOTS AND SHOES AT COST.

The following statement is copied in the main from the advance issue of the Report of the Superintendent of Insurance, dated "Ottawa, April 30th, 1881," addressed to HON. SIR. LEONARD TILLEY, Finance Minister, and signed J. B. CHERRIMAN:

COMPANIES. INSURANCE IN FORCE. TOTAL ASSETS ASSETS PER ON HAND. \$100 AT RISK. \$33.84 20.09 10.01 12.16 .7.44 12.16 12.83 The final column, above, is not found in the Official Report, but its accuracy can easily be ascertained by dividing the first column, minus the two right hand figures, into the second column.

A table of this kind shows at a glance how thoroughly the ÆTNA LIFE INSURANCE COMPANY has been making provision for all who hold its promises to pay. If a business man holds a large amount of a Bank's promises to pay, he likes to feel assured, not merely that the Bank has good hopes of earning, in future, enough to meet its notes as they are likely to be presented, but that it actually has the money on hand, or most of it, to meet all claims, even if an unusually sudden call should be made.

all claims, even if an unusually sudden call should be made.

Such sudden call has happened to many banks, at various times, and the weak ones have gone under; such sudden calls happened to American Fire Companies, at the Chicago and Boston confiagrations, and to Canadian Fire Companies at the St. John and Quebec fires, and found many companies unprepared to honour their cheap promises. An unusual call may fall, at any time, upon the Life Insurance Companies of this continent, such as has, at different times visited portions of Europe. So slight an influence as the Epizootic, which visited Canada and the Northern States in 1873, ran the mortality of several life companies up 25 per cent., for one or two years, and caused many to drop their policies. Three large companies paid nearly a million dollars in that one year, in excess of the average of previous and subsequent years. When the next unexpected call does come to life companies, the wisdom of those insurers who hold policies in the BEST AND STRONGEST COMPANIES will need no approval, but will then get abundance of it.

It is a good thing to be wise in time, and to err, if at all, on the SAFE side, by commencing while in good health an immediate and safe provision for dependent ones, or your own old age, by one of those popular ÆTNA LIFE ENDOWMENT BONDS.
