OTTAWA, March 5.-The underhand work in connection with the redistribution of constituencies is now in full blast under the subdirection of Mr. Bunting. The conserva-

tives will exercise every ingenuity to make everything tell in their favor. The vigor with which the work is being carried on may be conjectured from the fact that there has been in Ottawa for several days past four representatives of the liberal conservative association of North Simcoe, employing their 1277. The number of marriages registered ingenuity in conjunction with Mr. Dalton

WINNIPEG, March 1.-The Knapper ouse was burned last night. It was heat ed by steam, which was generated by boil-

ers placed in the cellar. When Mr. Rooks. the day clerk, went on duty yesterday morning about six o'clock it was apparent that something was wrong with the heat-

ing apparatus. The fires were put out, but that didn't seem to mend matters, and presently Mr. Rooks realized the fact that a catastrophe was imminent. The two en-gineers had already tumbled to the racket, and while Mr. Rooks was making up his mind to get the people out of the house the engineers bolted past him in full career for the upper

air. He thought that would be a good time to go too, and went up the stairs time to go too, and went up the stairs with more than usual alacrity, but by the time he got to the top, the boiler went off with a bang, and for a few seconds Books didn't know whether he was in paradise or not.
