Samuel E. Roberts, a Well-Known Business Man, Found Dead.

Mr. Samuel E. Roberts of the firm of Roberts & Son, art dealers, 79 King-street west, was found dead Monday night at his home at Mimics. He had only been indisposed two or three days and his demise was unexpected. About 11 o'clock on the night in question a daughter of deceased heard his cane fall on the floor of his room. Thinking he was summoning someone she ascended the stairs to his room. She found her father sitting in a chair with his head leaning upon the table, but when she touched him there was no response, the vital spark having fled. A complication of diseases was the cause of leath.

Why not enjoy life and keep pace with a vial crowd? To do this successfully you ust most assuredly take the recognized mmer tour to the Coast via one of the must most assuredly take the recognized summer tour to the Coast via one of the routes offered by the Canadian Pacific Rail: way. As the reader must know by this mme, the tour arranged by the C.P.R.y. is one of if not the most picturesque trips in the world. And then think of the pleasant people one meets on this tour. Canadians are noted for their jollity, and especially is their national trait shown when holidaymaking. Again the many conveniences of the C.P.R. arrangements. Every day trains leave Toronto at 8.45 a.m. and 9 p.m. with a separate through sleeper attached for Ottawa, Montreal and Kingston, while on Tuesday and Friday night there is a sleeper run direct to Portland and Old Orchard Beach. At Kingston and Ottawa the route may be varied by a water ride through some of the finest scenery in the world, scenery at once grand, historical and romantic, until the bustling City of Montreal is reached. From here the route by rail lies directly through the heart of the White Mountains; the train flies through scenes ever changing yet all so lovely.

It is an utter impossibility to do justice to the tour, as it must be taken before its beauties can be recognized. The Canadian Pacific Railway's head ticket office is at 1 Kingstreet east, where berths and tickets may be secured.

An Enterprising Firm.
The firm of A. R. McKinlay & Co., the essors of the old firm of Macfarlane, Mc-Kinlay & Co., who have been manufactur ing window shades for the past nine years at 37 St. Alban-street, and whose trade has been steadily increasing each successive year, are now showing a new feature in artistic shades, the sole production of Mr. A. R. McKinlay. These new and unique designs have only been introduced this season and have only been introduced this season and have been received with good favor by the trade generally. The firm are fully supplied with sufficient material to supply all who may favor them with their wants in that line, or in any branch of their trade. They claim now to be producing a shade cloth that is superior to anything that has ever been produced, and they think that they are showing this season some of the prettiest designs in fringes, laces and tassels that have been shown by any other house in the trade, and invite a careful inspection of their stock either through their representatives on the road or at their factory, where a complete display of samples of everything sold or manufactured by the firm can be seen in their sample room. Many of the new designs which we referred to in the beginning of this notice may be seen displayed in the window of Messrs. T. G. Foster & Co. of No. 235 and 237 Yonge-street, and are certainly much to be admired. Mr. McKinlay deserves oredit for his new idea of an art blind. St.

Gossip from Chicago.

Kennett, Hopkins & Co. to R. Cochran: Wheat—The decrease of 2,000,000 on passage and the fact that amount afloat is about 13,500,000 smaller than a year ago were strong supporting factors. The heavy receipts with 27 cars new and the fine weather conditions are the bearish factors. Market sold off some on early realizing sales, but second cables coming so strong and the seaboard reporting good export demand the lost ground was soon recovered and prices went higher than yesterday. A more confident feeling prevails, and it is not thought that more than moderate reactions will be experienced until materially higher prices are realized.

Kennett, Hopkins & Co. to Fenwick & Co.: Corn and oats have not shown much strength, holders been realizing and receipts are on the increase. The shipping demand for corn is poor, though some was taken here to-day for Liverpool, where it is said the market is oversold. The weather could not be finer for the growing crop. It is a healthy market to hold up under such conditions. Frovisions have maintained prices well on a light trade. If the Hatch bill was defeated it is thought a substantial advance would follow. Swarts, Dupee & McCornack to John J. Dixon & Co.: Wheat acted quite strong. All of yesterday's closing advance was maintained, but the inarket made no headway. Outside traders led the selling, while local operators were generally bullish. There was a fair array of bullish news. Northwest receipts were rather light, exports were the largest of any single day for some time. Northwest receipts were rather light, exports were the largest of any single day for some time. Northwest receipts were rather light, exports some action on the Hatch anti-option bill this afternoon, and for this reason did not take hold as freely as might have other wise been expected. Con did not do as well as usual. The weather was deddely against it. The receipts were five s Bank of Commerce Building.

It is a well-known fact that medical science has utterly failed to a relief in rheumatic cases. We venture the assertion that although Elecity has only been in use as a remedial agent for a few years, it has omore cases of Rheumatism than all other means cembined. Some of leading physicians, recognizing this fact, are availing themselves of most potent of nature's forces.
