

Chips.

FOREST fires caused great loss south of Little Rock, Arkansas.

JOHN A. MORRISON, Frederickton, N. B., is rebuilding his mill, destroyed by fire a few weeks ago. The new structure will be 40x100 feet.

At the close of the season there will remain in pile at Manistique, Mich., several million feet of lumber more than last year at the season's close.

CHICAGO is to have a World's Fair in 1892 to celebrate the 400th anniversary of the discovery of America. A company has already been incorporated at Springfield, Ill., for this purpose.

It is estimated that the lumber left on dock at Muskegon, Mich., when navigation closes will not exceed 100,000,000 feet, as compared to 225,000,000 feet at the close last season.

The mill of the Calgary Saw Mill Company, Alberta, is nearly ready to run. A trainway from the mill to the timber is about completed, and when that is done the mill will start.

The shade of an oak at Yalaha, Fla., would cover 1450 men, standing in contact. The manumote tree is 25 years old, and is still growing.—Savannah, Ga., News.

Catarrah—A New Treatment.

Perhaps the most extraordinary that success has been achieved in modern science has been attained by the Dixon treatment for Catarrah. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adopted his cure. Other extermination; this accomplished the Catarrah is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrah in this manner, and no other treatment has ever cured Catarrah. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure. The majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 80 King Street West, Toronto, Canada, and enclose a stamp for their treatise on Catarrah.—Montreal Star.

The Napier, Timworth and Quebec railway will make application to Parliament for an amendment to their charter enabling them to change their original route.

FOR SALE, TIMBER LIMITS & SAW MILL

GRATEFUL—COMFORTING.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal ailment by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus:
