

TO CORRESPONDENTS.

ADVERTISING RATES 10c. per line.

All orders for, or correspondence with us, requiring attention should be accompanied with stamp or exchange equivalent.

We have insufficient exchange stock of old Canadas, &c., to fill all our orders, in return for foreign stamps, but hope to fill soon. Parties sending us bogus stamps, please note we use a waste basket.

Parties wishing to make collections, cannot do better than purchase our Packets first as a nucleus, and then build up with sets and single stamps of greater value.

We will make up collections in any album at cheap rates, and in all cases the best stamps then in stock will be used, and more uniformity in obliteration, &c., will be obtained, than is possible for a collector to procure in the ordinary way.

EXPLANATION re ORDERS DELAYED.—In January we sent Stanley Gibbons & Co. order for Parcel Colonial Stamps, none received. In April we asked for explanation,—reply stated that being registered we must have got it. We denied it, requesting registration receipt and copy of invoice. S. G. & Co. sent list of stamps (common Continental, mainly at extravagant prices, not at all as ordered) which they had addressed to Dominion Stamp Co., Toronto. We traced its receipt to J. R., formerly connected with the D.S. Co., a defunct firm, who says S. G. & Co. owed him money for 2 years, so he refuses to give up Parcel. We explain to S. G. & Co. requesting settlement,—they refuse, and have the effrontery to charge us with their outlay for postage of a useless and absurd reply on a 1d. Postal Card, resulting from their own blunders. How about our outlay and interest? We publicly request S. G. & Co. to at once send us amount due or we shall order our printer to favor them with a standing advt. Correspondents should address Dominion Bazaar Co., not Stamp Co.

NOTICE TO OUR FOREIGN CORRESPONDENTS.—The new Postal Regulations require letter rates prepaid on parcels of Stamps, Envelopes and Cards, used or unused, sent from the Dominion to Great Britain or Foreign countries. N. B.—This does not apply to our correspondents within the Dominion sending to or receiving parcels from us. *Stamp for reply every time please.* Any correspondent getting new issues please send to us for review, we will return or give double value for first specimen of any new issue sent us.

N. B.—Collectors and dealers receiving this copy will get no more unless they send us a subscription or the value. We also request parties owing us to pay up before Xmas the \$172.35 now on our books against them.

DEALERS.—We propose getting up a new price list, and will supply with your address on only, at cheaper rates than any combination catalogues yet published. We are open to take suggestions now from any who think they may require it, to suit their trade and prices. It will be in English language only priced dollars and cents, with key to foreign values, small neat type, condensed, and will be valuable to European dealers for their foreign trade, circulars and price lists in their language being little use outside their own country, most attempts at translation result in failure.
