IMPORTANT BORING and TURNING MILLS

TO USERS OF

NOTICE—The above mill can be seen at our Works and is of the latest modern type. If you are a buyer please communicate with us. Instant delivery can be given. Full particulars sent on receipt of wire or letter.

WE are ready to delivery from STOCK one of our 84" Boring and Turning Mills, having two regular heads with positive geared feeds, each head being entirely independent in all its movements, making it adaptable to either light or heavy work within its range. Every part of the machine is manufactured after the most approved methods, and in placing a tool of this kind in your shop you are getting a machine suitable for your wants if you wish to make the most of your boring mill work. A greater range of work can be done on a mill of this character than any other kind of tool, so that the floor space occupied by Bertram mills always pays dividends.
