The Collegiate Course of the Faculty of Medicine, begins on October 3rd, 1910.

**MATRICULATION.**—The Matriculation Examinations for Entrance to Arts and Medicine are held in June and September of each year. The entrance examinations of the various Canadian Medical Boards are accepted.

**COURSES.**—The Regular Course for the Degree of M. D., C. M., now consists of five sessions of about eight months each.

**SPECIAL COURSES** leading to the Degrees of B. A., M. D., and B. Sc. (Arts); M. D., of seven years have been arranged.

**ADVANCED COURSES** are given to graduates and others desiring to pursue special or research work in the Laboratories, and in the Clinical and Pathological Laboratories of the Royal Victoria and Montreal General Hospitals.

**A POST-GRADUATE COURSE** is given for Practitioners during the months of June and July. The course consists of daily clinics, ward classes, and demonstrations in general medicine and surgery, and also in the various special branches, Laboratory courses in Bacteriology, Clinical Chemistry and Microscopy are also offered.

**DIPLOMA OF PUBLIC HEALTH.**—A course, open to graduates in Medicine and Public Health Officers, of from six to twelve months' duration. The course is entirely practical, and includes in addition to Bacteriology and Sanitary Chemistry, a course on Practical Sanitation.

**HOSPITALS.**—The Royal Victoria, the Montreal General, the Alexandra Hospital for Contagious Diseases, and the Montreal Maternity Hospitals are utilized for the purposes of Clinical instruction. The physicians and surgeons connected with these are the clinical professors of the University. The Montreal General and Royal Victoria Hospitals have a capacity of 250 beds each.

**RECIPROCITY.**—Reciprocity has been established between the General Medical Council of Great Britain and the Province of Quebec Licensing Board. A McGill graduate in Medicine who has a Quebec licence may register in Great Britain, South Africa, India, Australia and the West Indies without further examination.
