WARNER & CO'S EXHIBIT AT THE WORLD'S COLUMBIAN FAIR.

In the Manufacturers and Liberal Arts Building is a department devoted to Pharmaceutical products, in the north-west corner of the gallery. This is a prominent position, because the spectator can look upon the exhibits below in a comprehensive way that clearly illustrates the magnitude of this great building of 44 acres of floor space. The exhibit of Wm. R. Warner & Co. is located in this department, Section D 101, at the junction of two avenues. It comprises 400 square feet, and consists of a pyramid 18 feet high with steps forming shelves, trimmed with gilt moulding and surmounted by a statue of Mercury. There is a 4 foot space on either side with seats for visitors, and a door leading to the interior. The stand is simple and conspicuous, without any attempt at a cabinetmaker's display or of beautifully cut bottles. This collection comprises sugar-coated and gelatin-coated pills, flat, oval, pink, white, blue and yellow. Compressed Tablets, Fluid Extracts, Effervescent Salts, including Bromo Soda highly extolled in sea-sickness, insomnia and migraine.

The firm of Wm. R. Warner & Co. (founded in 1856) occupies a most prominent position in their particular line. F. Newbery & Sons, 1 and 3 King Edward Street, are their agents in London. Wm. R. Warner & Co. have branch stores at 197 Randolph Street, Chicago, and 18 Liberty Street, New York.
