

For Many Years..

.... there has been a prejudice in the minds of the public against the use of Spices put up in $\frac{1}{4}$ pound packages—a prejudice which to a very large extent was justified by the quality of the goods that were placed upon the market at that time, and, to a certain extent, have continued to the present.

To overcome this prejudice, it has been our aim to put up in packages bearing **OUR NAME AND LABEL**, only the **VERY BEST** and **PUREST GOODS**, believing that such will be appreciated by the public, and eventually redound to our profit. In this connection

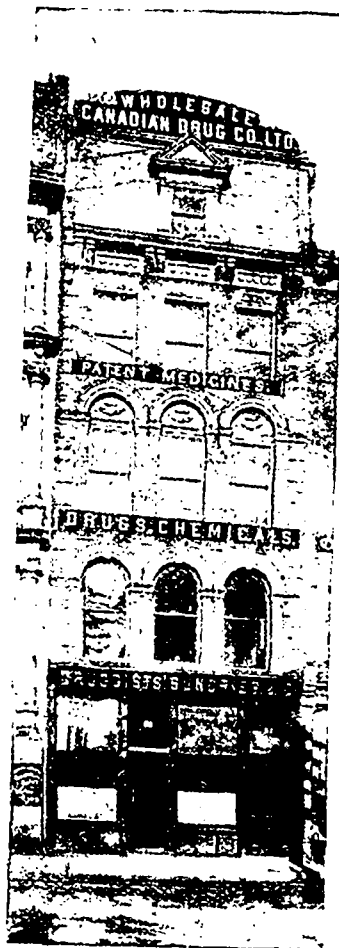

Let us Point you to a Few Good Things.

Cream of Tartar

Put up in packages bearing **Our Name and Label** is of the purest and best quality, finely ground and full weight.

Ground Black Pepper

Put up in packages bearing **Our Name and Label** is absolutely pure **Singapore** pepper and full weight, and is not of the low grade Penang or Sumatra Pepper as so many package peppers are.

All Spices

In packages bearing **Our Name and Label** we guarantee, and assure you are **PURE STRAIGHT** goods and free from all adulteration.

The same may be said of...

Our Essences
