

# SWAN SAFETY FOUNTPEN

possesses three features that make it the most reliable pen made. It can't leak because the "**Screw-down Cap**" creates an air-tight chamber around the pen point which makes leaking impossible. It can't blot because the "**Ladder Feed**" controls the supply of ink, supplying the exact amount necessary—no more. Always writes because the "**Gold Top Feed**" keeps the point of the pen wet with ink which ensures instant writing.

For Men—The "Swan Safety" can be depended on to write instantly, and not to leak no matter in what position it is carried.

For Ladies—The "Swan Safety" can be carried in purse or hand-bag, or can be worn on a Chatelaine.

Made in different styles—Chased vulcanite, Sterling Silver, Rolled Gold, and Solid Gold, in Filigree, Engraved, or Plain patterns. Ask any stationer or jeweler to show you a selection of the new "Swan Safety" Fountpen. Prices \$2.50 and up. *Illustrated folder on request.*
