GOVERNMENT'S SHARE OF GDP

Question No. 1,842—Mr. Hogan:

In real terms after adjusting for price increases, what was the government's share of the Gross Domestic Product (GDP) over the two decades from 1952 to 1972?

Mr. Gaston Clermont (Parliamentary Secretary to Minister of Industry, Trade and Commerce): Statistics Canada reports that over the past two decades the government's share of the Gross Domestic Product is as shown in the table below.

Government Expenditure¹ as a Percentage of
Total Gross National Expenditure²
1952-1972 (1961 dollars)

	per cent		per cent
1952	21.2	1963	18.9
1953	20.6	1964	18.3
