

McGILL UNIVERSITY
MONTREAL

THE MACDONALD PHYSICS BUILDING

March
Thirteenth,
1924.

copy sent Dr. Nicholson March 17/24

Sir Arthur Currie, G.C.M.G., K.C.B.,
Principal,
McGill University.

Dear Sir Arthur,-

At a meeting of the Professors of the
Physics Building, it was decided to recom-
mend to the Principal that Mr. H. T. Pye
should be termed "Instructor in Laboratory
Technique" and entered as such in the Calen-
dar on page 168, after "Demonstrators". Mr.
Pye is giving valuable instruction in Physics
15, page 171.

The title of Instructor would entitle Mr.
Pye to be entered under "Officers of Instruc-
tion" on page 27. It would further entitle
Mr. Pye to join the Faculty Club. I may point
out that Mr. Pye has served the University for
a large number of years, that he is one of the
ablest apparatus makers in the Dominion and
that his personality and character are such as
would make him, in our judgment, a desirable
member of the Staff and of the Faculty Club.

Yours very sincerely,

Director of Physics.
