Seventy-six schools in Northwest Territories in 1880, 640 in 1902.

Forty-eight Carnegie libraries in Canada.

One-and-a-half millions have been given by Carnegie to Canadian libraries.

Gourlay Pianos

Mark a Notable Advance in the Science of Piano Building

Good pianos that are regarded as first class, and to-day are as fine as they ever were, are not only outclassed, but appear at a disadvantage when compared with the "Gourlay," because of its greater achievements in construction and tone quality.

The "Gourlay" is the creation of later and more advanced science; it is the ultimate result of the spirit which says, not "How many pianos can I make and market in a year, but "How fine a piano can I produce? —How can I surpass all previous standards?"

In short, whilst the "Gourlay" may not represent "the most perfect that may yet be," experts who have examined the "Gourlay" unite in affirming that it represents "perfection in piano building" many degrees beyond that heretofore attained in Canada.

Catalogues containing details of constructional improvements will be mailed to any address on application.
