* The date on the title page is 1854, but the whole appeared by instalments in *Lotos* in 1853—the last, in November, containing the Gryllidae; and Fieber in mentioning this in *Lotos* (iv, 146, note) says of the separate issue "unrichtig mit der jahreszahl 1854." It is important, as it thus precedes Fischer's work, the preface of which is ix., dated, Cal. Nov. MDCCCLIII."
