NORTH TORONTO.

WEST TORONTO, Oct. 2.—(Special)—What might have proved a repetition of the fatal accident of a week ago, when a child was killed by a motor carning a few minutes after 12 noon at the corner of Symington and Wallace-avenue, and was about to turn south on Symington avenue, when Margaret Millan, the little 5-year-old daughter of Mr. and Mrs. Millan of 226 Symington-avenue, who was playing at the side of the street, left the curb and, without looking, started to run across the street. She was immediately struck by the motor car, which fortunately was going at a moderate speed, and was therefore quickly stopped. Dr. Morgan was hurriedly sent for, and the child was removed to her home, where her injuries, happily not very serious, were attended to. The number of the car was 7116.

The adjourned inquest into the death of Nikola Homeuk, the Austrian, who was killed by the bursting of an emery wheel at the Gurney Foundry, was held to-night by Coroner Hopkins at the city morgue.

This morning about 11 o'clock a large auto truck belonging to the Toronto Plate Glass Co. came nearly again demolishing the wooden structure erected in front of Chisholm's new store on Dundas-street. The truck was going west and was attempting to pass a oar when, owing to the slippery state. of
