

THE WORLD'S MOST FAMOUS MAGAZINE FOR WOMEN READERS

Jappyland at Princess

Amateur Production of Operatic Extravaganza For Good Cause.

"Jappyland," produced at the Princess Theatre last night by a talented and enthusiastic company of young women, met with the general approval of a large audience, as was evinced by the bouilliant applause thronged the entire production.

"Jappyland" is a selection of extracts from the leading operatic extravaganza produced in that city by The American Amusement Company of New York some time ago with great success.

The characters were portrayed with much credit to those in the cast, and the chorus, barring a slight and pardonable nervousness, showed excellent voice quality. The dances contributed by Misses Davis and Dorothy Hubbell were above the amateur.

Miss Davis gave a graceful Spanish dance, using the castanets. An attractive production, and will be presented again to-night, when it should draw an overflowing audience.

As the proceeds are to be devoted to the benefit of the Children's Aid Society, the present performances will doubtless be well supported.

LILAC LURE.

Last night I sat and read alone,
With windows wide to the sea,
And my dear poet's loves and dreams
In my heart were ever near.
Below the wave crooned my peace,
A murmuring melody.

And pain had reached a tedious time,
Slumberous and passionless;
A wicker chair, thoughtfully had lulled
To sleep the old distress.

It seemed, at last, my lonely soul
Accepted loneliness.

Then scent of lilac floated in,
Sweet from the springtime rain.
O fragrant lure; that roused the love
That safe asleep had lain!

Here was the old, mad heart once more
Awake and wild again!

1947—Child's Guimpe.
Paris Pattern No. 1917.
All Seams Allowed.
So many of the summer frocks of little girls are made to wear with a guimpe that a great supply of these necessary little underwashes is indispensable for neatness. As a general rule for making them, the model forms the best basis possible, and a wide latitude in ornamentation will give the desirable variety.

The pattern is in four sizes—3 to 9 years. For a child 5 years the guimpe needs 2 yards of goods 20 inches wide, or 1-1/2 yards 28 inches wide, as illustrated, 1-2 yard of all-over embroidery 18 inches wide for collar, wristbands and upper part of guimpe and 1-1/4 yards of edging to trim.

NEWEST FAD AT HANLAN'S.

"Dipping the Dips" Has Caught On With the Ladies.

"Have you dipped?" To admit that you have not is to acknowledge that you are behind the times. "Dipping the Dips" at Hanlan's Point is the latest fashionable fad. The half-mile ride on this mammoth aerial railway, at a speed of over a mile a minute, in spots, is as exhilarating as it is amusing. The ladies have found this out and insist on dipping before they return from Hanlan's. The "mystic river" which has been much improved and lengthened since last season, is another favorite spot of the ladies and their escorts. The 10 minute ride on the river, thru tunnels and beautiful scenery has a fascination for the engaged and sentimental young couples. For the children there is the new \$15,000 carousel and the miniature railway. At the gypsy camp, situated near the new cement broad walk, there are Madame Zingari and her dark-eyed, pretty maidens, who, when their hands are crossed, with silver, tell anxious lovers the past, present and future.

The free attractions presented this week are the best yet given at Hanlan's. The world-renowned Minting, the Marvel, gives his daring and thrilling performances twice daily. It is claimed by him that he is the only man who has accomplished the reckless feat of riding up and down a spiral tower to a dizzy height, on the wheel of an ordinary bicycle. The Holmen Brothers, the noted acrobats, late with the Ringling Brothers' Circus, are another special feature, and one well worth seeing. The noted English pantomime clowns, White and Landon, from the Drury Lane Theatre, London, with their trick horse, create no end of fun for the children. These performances are given every afternoon and evening, and are free.

BROTHERS MAY LEAVE.

Refuse to Pass the Usual Qualification Examinations.

OTTAWA, June 11.—(Special.)—There is a possibility of the Christian Brothers of Ottawa, removing from this city, and moving to the Province of Ontario, on account of the decision that they must qualify for teachers by passing the same examinations as other teachers.

The issue is not formally stated in a communication forwarded to the separate school board, for consideration to-morrow night. It is understood that if the law be strictly applied the board may have this decision presented to it.

This would mean a heavy blow, as the brotherhood furnishes the teaching staff in St. Jean Baptiste, Guignes, Garsfield and Brebeouf schools, forty teachers in all.

CLERGY ARE SCARCE.

Bishop of Ottawa Deplores the Lack of Candidates.

OTTAWA, June 11.—(Special.)—The Bishop of Ottawa, in his annual address before the synod of the diocese to-day, deplored the lack of clergy to assume charge of the various parishes. In his 22 years' episcopate with this and another diocese, he had never experienced so much difficulty in getting clergy.

Methodist Funds

FOR IMMIGRATION
Proposal of R. W. Perks, M.P., Laid Before the Denominational Locally.

Practical Christianity, the Brotherhood of Man and Mutual Help was the theme of an address by R. W. Perks, M.P., millionaire, contractor, politician and principal pillar of the Methodist Church in England, delivered at the complimentary banquet given him by the Methodist Local Union at the Kings Edward yesterday afternoon. H. H. Fudge, president of the union, was in the chair, supported by Hon. Thos. Crawford, Speaker of the legislature; Chancellor, Burwash, Senator; Cox, Chester Massey and the leading clergy and laity of the Methodist Church.

Mr. Perks said he believed that Methodists should keep pace with the times and should adapt themselves to the rapidly changing phases of the work in the motherland, in Canada and the more distant places beyond the seas. In England the Wesleyan body were very conservative and it was hard work to get the general assembly to adopt new ideas. There was a danger of their getting too wealthy at the present time. The churches in Great Britain were at the rate of \$16,000,000 a year. The twentieth century million sterling fund clearly showed the latent resources of the British Empire.

The church was now engaged in a great movement to advance the brotherhood of man in a social sense. He wanted to see that movement extended until it became such a power that privation and suffering should be banished forever. He wanted to create an organization that should be a source of strength to the weakest member of the community, that would help those who might fall by the wayside to get a new start in life. They might well take a leaf out of the book of their founder, John Wesley, who in his day had a loan club to aid needy members, and it was his proud boast that he never lost a single penny of its funds.

A British 10-day was greatly overcrowded and an outlet must be found for that surplus of population. The church here would co-operate with the church in the motherland which could raise a fund that would give these pioneers an honest start under fair conditions.

Mr. Perks will further explain his scheme in the Metropolitan Church on Monday evening next.

MONTREAL, June 11.—The Penman Mfg. Co.'s factory at St. Hyacinthe has left shortly after the ceremony for a trip to the Thousand Islands. They will return to Toronto for a short time before going on to the various points on the coast.

The management granted a partial increase in wages, but the employees demanded more.

How to Fool a Lazy Liver

with Artificial Exercise

EVERY serious Sickness has a small beginning.

And, in nine cases out of ten, that beginning is made in the Bowels.

Constipation is the beginning of most diseases. It paves the way for all others.

Lack of exercise, hasty eating, improper food, are its first causes.

Laziness, and postponement, permit it to grow into Chronic Constipation, which means life-long Discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mighty uncomfortable.

Even a slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.

The time to adjust the Bowels is the very minute you suspect they need adjustment.

- If your tongue is slightly coated,
- If your breath is under suspicion,
- If your head feels a trifle heavy or dull,
- If digestion seems ever a little slow,
- If Heartburn, Belching, Colic or Restlessness begin to show themselves,
- That's the time to eat a Cascaret.

It acts as pleasantly as it tastes. It is as congenial to your Bowels as it is to your Palate.

It stimulates the muscular lining of the Bowels and Intestines, so that they mechanically extract nourishment from the food and drive out the waste.

The only way to have Cascarets ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil.

The ten cent box of Cascarets is made of fine, flat, round-edged, and small, for this precise purpose.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "C.C.C." All druggists. 760

STABBED HIS NEIGHBOR.

High Constable Now Looking For the Assailant.

OTTAWA, June 11.—(Special.)—High Constable Groulx of Hull is having an interesting chase over the Gatineau Valley in an attempt to locate Chas. Dubois, a farmer, of North Wakefield, who is alleged to have entered the home of a farmer named Sandy McMillan, and while drunk, stabbed McMillan with a hunting-knife in eight places.

Maher Gets Judgment.

Pat Maher does not have to pay Painter Davis, who got judgment in the county court for injuries sustained by being run down by a rig on the corner of King and Yonge. Yesterday the division court dismissed the action on the grounds that there was no evidence as to the ownership of the rig, and also, that the driver's judgment for \$125 already granted.

Asbestos Factory Destroyed.

ST. CATHARINES, June 11.—(Special.)—About 11 o'clock last night, fire broke out in Grenville Bros.' asbestos factory, Thorold, and before it was got under control it was entirely destroyed and a building next, occupied by Miss Hart, was also destroyed, together with its contents.

The loss will amount to about \$2500, with small insurance.

ASSEMBLY INTERESTED BY A HERESY DEBATE

Appointment of Alex. Gordon to Montreal College Occasions Spirited Remarks.

MONTREAL, June 11.—(Special.)—The heresy hunters strained at the leash in the general assembly this morning, but failed to arouse much sympathy. Rev. Dr. Sedgwick and J. K. MacDonald were the chief spokesmen against the appointment of Rev. Alexander R. Gordon, Dundee, to the chair of Old Testament literature and exegesis in the Montreal College.

Principal Scrimger read a paper reading Mr. Gordon highly as an Old Testament specialist. Dr. Sedgwick produced a copy of the Hibbert Journal for October, 1906, containing an article by Mr. Gordon on "The Religious Value of Genesis." The views therein stated, he held he could not acquiesce in this appointment as Genesis was represented as a mass of myth and legend. A myth was nothing but a fairy-tale.

Dr. Turnbull moved, Rev. George MacArthur seconding, "to remit the question to a committee, to report on the question of the article and described Dr. Sedgwick's definition of a myth as utterly unwarranted and erroneous. Myth was history handed down orally from generation to generation.

Rev. W. J. Dey spoke against the appointment, but Rev. Duncan Campbell, a college mate of Mr. Gordon, considered the article a conservative piece of writing.

Principal Patrick, who was a personal friend of Mr. Gordon, asked who was to define the orthodoxy of the article. It could not be settled by that or any court. The only way was free discussion by reverent and believing men. Mr. Dey, it was his own standpoint, "I was taught in every college of the church but one.

"More is the pity," said Dr. Sedgwick. "I, too, would not permit the impression that the laity were dissatisfied, and he would not stand behind Mr. MacDonald. The professors should not be asked to play fast and loose with the truth.

Principal Scrimger asked where could a competent man be found who would have freedom to express his views. Dr. Sedgwick had not followed his own views to a logical conclusion, but had taken the opportunity to attack a stranger. If he was ignorant he was not in earnest.

Dr. Sedgwick demanded a retraction, and Dr. Scrimger said Dr. Sedgwick had taken no pains to get the views of other professors. This was still more offensive to Dr. Sedgwick, who insisted on a withdrawal, to which Mr. Gordon would not subscribe, did not make it necessary for anyone to adopt the views of a stranger. Were they going to impose new standards of subscription?

The amendment was negative and the appointment confirmed. Dr. Sedgwick dissented.
