Monte Cristo Advices from the west are to the effect that holders of Monte Cristo stock should not let go. The present slump in the stock is said to be caused by the decision of the management to postpone shipping until the spur line is run up to the mine. The body of ore in the property is said to be looking well, and a rapid advance in the stock is predicted.

A. W. Campbell Tells of His Trip

A. W. Campbell Tells of His Trip
to Essex.

Mr. Campbell of "good roads" has just
returned from a trip to Pelee Island, where
he inspected the roads and addressed the
people on Friday evening. The roads there
are unsatisfactory, but some machinery has
been obtained and more will be bought to
work the quarries, where a serviceable
stone has been discovered for road making.
Pelee Island is a pretty place and is golong ahead. About \$30,000 has been spent
during the last three or four years in recatalming marshes of the island and securing proper drainage. Although in the past
fish and fruit have been the staples, the
people are now going in for farming, as
the land when drained is excellent for
growing wheat and other grains.

HOLLIDAY ON COPPER.

Parry Sound Copper.

Mr. F. Holliday, Crown Lands Agent at
Parry Sound, was a visitor at the Parliament Buildings yesterday. He thinks the
discovery of copper in Foley Township,
Parry Sound, is one of the important

things.

The McGowan mine was discovered on the banks of one of the small lakes in that locality, and in a recent assay gave \$3357 to the ton. The vein is gold, associated with copper, the latter forming 65 per cent. and the outcropping is from 12 to 15 feet wide. The lead extends over 200 acres and is thought to be worth half a million.

Where is It Going to End? Where is it Going to End?

Editor World: I'd like to see a discussion in your columns by business and profession men of the daily raids, hourly raids, made on them by women and men, boys und girls, collecting for charity. Tor prize lists, seeking situations. It's got to be almost unbearable. The agricultural shows and plowing associations within 100 miles of the city have all joined in the raiding; we have so many charity establishments that all the province seem to dump their weaklings on Toronto, and the more the will grows the more men and women in the city seem to turn up, willing to go shout with a book seeking subscriptions to men stop their own wives and daughters doing this thing? My plain and outspoken opinion is that if the agricultural societies, the trades unions, the militia companies, and all such wish to give prizes, they should

"A Quiet Day."

The meetings of the Aummi Association of Wycliffe College began yesterday morning at the College. At 9.40 a.m. a devotional meeting was conducted by Rev. E. Daniel in the chapel. At 10.30 Right Rev. Maurice Baldwin, Lord Bishop of Huron, began the exercises of the quiet day by a series of addresses on the Priesthood of Christ as fulfilling the prophecies of the Old Testament Scriptures.

In the afternoon the Bishop spoke upon The great commission of our Lord and the three distinct epochs in the history of time." At the close of the meeting, Principal Straton thanked the Bishop on benalf of all present for his instructive and cucuraging words. The meetings will be continued during the week.
