President Benedict of the club introduced the speaker, who said the Tories who field from New England to the St. Lawrence to escape the persecution of their neighbors must be praised for as much devotion to national unity as the unionists of the civil war, and as much courage of their convictions as the Pilgrims of Massachusetts. After mentioning the steps of the struggle that finally secured essential independence for Canada, the speaker enumerated some respects in which he considered the Canadian form of government superior to that of this country. The respective powers of the Federal Government and the several Provinces are fixed and settled. It is probable that the free lists in the Tariff Acis of Canada and the United States will be incorporated in any reciprocity agreement which may be reached, and it is pointed out by members of the commission that this will be important in giving these free lists a permanent form as parts of a treaty, rather than in changeable form as part of the general statutes.
