Says French Catholics Will Not Refuse Holy Father's Request.

### PUTS BLAME ON IRISH

Says Race Has Betrayed the French and Helped the Orangemen. .

Special to The Toronto World.

Montreal, Oct. 31.—Hon. Senator P.
Landry, after saying that the people should be grateful to the Pope for his effort to settle the difficulties between the English and French-speaking Catholics, declared "that there are profound dissensions between English and French Catholics no one can deny. We have begun together the battle against Orange fanatics in the Province of Ontario; yet when the combat was at its height the Irish Catholic element turned their arms against us, almost all of them separating themselves from us to fight us with the ahamunition we had supplied them and placed themselves alongside our common enemy, the Orange group. It is this desertion which threatens to compromise the existence of the separate school, and to which the Holy See wishes to put an end in grouping into one phalanx all Catholics of the English and French tongue. We cannot but applaud the paternal effort, and we French Catholics will certainly not refuse the father of the faithful to contribute for our part to the union of all members under the shadow of the Catholic school. We can suppress this race rivalry if each will combat the common enemy, but this cen never be if one race is to betray the other and throw itzelf into the arms of the enemy in crder to combat the rights and throw itrelf into the arms of the enemy in order to combat the rights of fathers of families and to tear from the children's mouths the snored tongue learned at their mother's knee."

Buffalo Newspaper Man- Says Time is Not Far Distant When Price Will Go Up.

Hamilton, Wednesday, Nov. 1 .- Wil-Hamilton, Wednesday, Nov. 1.—William P. Goodspeed, general manager of The Buffalo Evening News, and president of the Buffalo Ad Club, was the guest of honor and principal speaker at the luncheon of the Hamilton Ad Club, held at the Royal Connaught Hotel last evening. He outlined the work done by the Buffalo organization and how it was the sponsor of the slogan of the Bison city. "Buffalo Means Business."

Mr. Goodspeed predicted that owing to the increase in the cost of white paper the time was not far distant when every newspaper published in America would not be sold for less than five cents a copy. Newspaper advertising was much more beneficial and cheaper than circulars and letters, he proved.

Today advertising in the newspapers was looked upon as news.

# W. C. T. U. Played Important Part in Prohibition Law

Hamilton, Wednesday, Nov. 1.—At the afternoon session of the thirty-ninth annual convention of the Women's Christian Temperance Union, Mrs. E. A. Stevens, Toronto, in submitting her report, referred with pride to the part the association has played in bringing about a dry Ontario.

She referred to the wonderful results of prohibition, and the few police court cases. The decrease in arrests for drunkenness during the first week of prohibition was 247, she said. She hoped Quebec would soon take the plunge. High tribute was paid to the Ontario Legislature for the placing prohibition measures on the statute books.

The report of the missionary secretary, Mrs. Dettor, of North Bay, showed a balance on hand of \$3616.78.

Montreal, Oct. 31.—The disappearance of the wood pulp supply in Canada during the next twenty-five years. if conservation measures were not adopted, was prophesied before the Dominions Royal Commission at its session this morning by Eilwood Wilson, an expert on the paper industry. Mr. Wilson stated that three things were essential to the protection of the pulp industry in this country; one was the adoption of a scientific scheme of reforestation, another a proper system of fire protection such as had been adopted in British Columbia and or the lands under the control of the Laurentide interests on the Ottawa and St. Maurice Rivers, and also a system that would do away with the dangerous disposal of waste that now prevails in the forests thruout Canada, Mr. Wilson stated that during the past 35 years thirty per cent. of the pulp wood lands of Canada had been burned over and rendered useless for genif conservation measures were not

May Find New Field.

Carl Riordon explained how the long haul to Europe with its consequent high freight rates made it almost impossible for Canadian paper or pulp manufacturers to compete with the manufacturers of pulp in Europe, who are located principally in Sweden and Norway. He stated, however, that when the war was over it was expected that with the higher taxes that would prevail in Europe, the higher cost of capital, that the price of the European pulp would increase materially, with the result that the Canadian manufacturers might find a new field for their output.

London, Oct. 31.—The battle on the east front spread today along a large part of the Galician and Volhynian lines, and increased in fury at every point. In Volhymia: the Russians won their first success in days, while the Teutons proved their superiority in Galicia.

In the region west of Lutsk, Brusiloff's troops, after battering at the enemy's defences for three days, finally broke thru. The Teuton advance trenches from Pustonyty to Oshchest, in the sector immediately south of the Stokhod, were overwhelmed by the Russian infantry, who entrenched themselves so strongly that the subsequent efforts of the enemy to regain the lost ground falled completely. This move gives the Russians a firmer grip on the enemy's lines along the Luga River, and puts them in position to strike a heavier blow at the defences of Vladimir-Volynski, Kovel's southern gateway.

The successes of the Teutons were obtained in the Halicz sector and to the south. Turkish forces swung forward on the east bank of the Narayuvka and swept several Russian positions at the solin of the bayonet. Further south regiments composed entirely of Germans stormed and shelled important heights west of Foly-Kasnolesne. Russian counter-attacks were of no avail.

The Teutons hammered all day at the Russian positions on the Zlota Lipa. south of Brzezany, but Letchitsky rushed up reinforcements and parried the enemy's blows. The losses of the attackers are reported to have been enormous.

Pass has been converted into a reverse for them.

A typical example of German diplomacy is seen in the dealing with Norway. The government of the kalser is endeavoring to intimidate the Scandinavian kingdom as a result of the exclusion of submarines from Norwegian waters. This same action had been taken by Holland and Sweden, and it waters. This same action had been taken by Holland and Sweden, and it has been passed over by Germany, because the neutrality of Holland and Sweden is valuable to her. But in the case of Norway Germany sees an opportunity of displaying her system of diplomacy in all its tone of bluff and bluster. This peculiarity of the Teuton foreign policy is what is known as militarism, coupling every demand with a threat of war. Whether Norway and Germany will go to war has not yet been determined.
