

GEO. F. COMSTOCK, Pres't. THOS. MOLLOY, Treas. J. W. BARKER, Sec.

THE

SALT COMPANY OF ONONDAGA,

SYRACUSE, N. Y.,

(GENERAL OFFICE, NO. 1 CLINTON BLOCK.)

MANUFACTURERS OF

Coarse, Fine and Dairy Salt.

ONONDAGA SALT

Now sustains a reputation fully equal to that of any Salt known—the *Solar or Coarse*, for packing and preserving Meats; the *Common Fine*, for all ordinary purposes; and the *Factory-filled Dairy*, for the use of Butter and Cheese manufacturers especially, and for culinary and all other domestic purposes.

The tests to which the DAIRY SALT has been largely subjected by analysis, and also by the use of it in a large number of Dairies, *alternately with Ashton*, have established beyond controversy that, if not superior, it is fully equal to the best Ashton imported. The best evidence of this fact is, that in all localities in this (New York) and other States where such tests have been made, the consumption of our Salt has largely increased, and in all parts of the country Onondaga F F Dairy is rapidly taking the place of all other kinds of Salt for dairy purposes.
